Day: 3, 27th February 2019

Time	Topic	Speaker/Moderator
8:30-10:00 (1 hr 30 min)	Multidisciplinary management/ check list Safe handoff Case presentation/ discussion case by scenario	Dr Alpesh Amin Dr Sreekanth Cheruku
10:00-12:30 (1 hr 30 min)	Intraoperative trans-oesophageal Echo cardiography	Dr Alpesh Amin Dr Sreekanth Cheruku
12:30-13:00 (30 min)	Panel discussion	Dr Alpesh Amin Dr Sreekanth Cheruku

On the occasion of 26th foundation day as part of ‘Week Long’ celebrations of SVIMS, this CME/Workshop will be held during 25-27, February 2019. Various academic/research/hands on training programs are planned. A team of experts from University of Texas are invited to deliver lectures and for hands on training, in coordination with SVIMS faculty.

Objectives of CME/Workshop:

- To understand effective team dynamics and multidisciplinary approach in the management of critically ill patients
- To understand and implement disease management strategies in patients with advanced heart and lung diseases and evaluating them for transplantation.
- To improve cognitive and psychomotor skills in bronchoscopy and critical care ultrasonography through hands-on workshop and interactive panel discussions by eminent national/international faculty.
- To update knowledge and gain competencies in heart and lung transplantation.

Target Audience:

The CME/Workshop will be useful for Anaesthesiologists, Cardiologists, CT Surgeons, Critical care specialists, Emergency Physicians, General Physicians, Pulmonologists and transplant specialists.
