MESSAGE

It gives me great pleasure to know that the time for the next issue Akanksha is here. Akanksha provides a good forum for the faculty, staff and students of various colleges of the university to show their writing and drawing skills. Sometimes I have read articles pertaining to history of SVIMS and found eyewitness account of evolution of SVIMS. I wish all the best to all the contributors to Akanksha and “happy reading” to be all the readers.

In services of Lord Venkateswara

Dr. ALOK SACHAN

MESSAGE

As we reflect on a year marked by resilience, growth, and notable accomplishments, it is with great pride that we present the latest edition of *Akanksha*, the annual magazine of SVIMS University. This edition captures the stories, experiences, and milestones that have shaped our collective journey over the past year.

Within these pages, *Akanksha* brings together inspiring narratives, scholarly insights, and compelling visuals that reflect the dedication, creativity, and academic spirit of our students, faculty, and staff. Each contribution stands as a testament to our shared commitment to excellence, innovation, and service.

The year has been particularly significant for SVIMS University. Among our most remarkable achievements is the approval granted by the National Medical Commission (NMC) to commence postgraduate programs in six disciplines, namely Ophthalmology, Otorhinolaryngology (ENT), Obstetrics and Gynaecology, Orthopaedics, Dermatology and Venereology and Paediatrics. These accomplishments highlight the strength of our collaborative culture and our unwavering pursuit of continuous improvement and meaningful impact. We extend our sincere gratitude to our readers, contributors, and sponsors for their continued support. We hope this edition of *Akanksha* inspires reflection, pride, and renewed commitment to our shared vision.

MESSAGE

I am happy to learn that, Sri Venkateswara Institute of Medical Sciences, Tirupati is celebrating its 33rd Anniversary on 26.02.2026 and releasing the souvenir AKANKSHA-2026 on this auspicious occasion. I am indeed immensely pleased to witness the steady progress of the institution day by day in all the aspects of academic excellence, research advancement and healthcare delivery.

Soon after our new TTD Board assumed office, a high-level committee was constituted under the chairmanship of senior IAS officer Sri I.V. Subbarao garu to study various issues of the institute. The committee has submitted a comprehensive road map for its development. Accordingly the TTD Board has enhanced the revenue grant of Rs.70 crores thus raising the total annual grant to Rs.130 Crores. Faculty recruitment was undertaken for 100 posts and 50 faculty members have already joined in various specialties. The recruitment of Nursing and other cadres is also in pipeline and will further strengthen the institution's service capacity.

We have inaugurated several new infrastructure facilities including Central Godown, Patients' attendants block. The other buildings New cancer block, Central Kitchen and Staff quarters are ready for occupation very soon.

The institution has been equipped advanced medical equipment such as MRI, CT Scan, Cathlab facilities. Additionally the new state-of-the-art equipment PET Scan, Gamma Camera and Linear Accelerator are ready for inauguration, significantly enhancing diagnostic and therapeutic capabilities.

The Government of Andhra Pradesh and the TTD Board are committed to the overall development of the institution and to make it one of the best medical educational institutions in the country.

I congratulate the Director-cum-VC, faculty, staff and students of Sri Venkateswara Institute of Medical Sciences for their commendable efforts and dedicated service. I pray to the Almighty Lord Venkateswara to bestow His divine blessings upon the institution for continued success and glory in the years to come.

MESSAGE

I am delighted to announce that Sri Venkateswara Institute of Medical Sciences (SVIMS), Tirupati, is celebrating its **33rd Anniversary on 26th February 2026**. During the past year, SVIMS has recorded spectacular and consistent all-round growth, marked by several remarkable achievements, as has been the trend over the last 32 years.

SVIMS continues to strive relentlessly towards maintaining excellence in quality healthcare. This commitment was reaffirmed in 2025 through the successful renewal and achievement of prestigious accreditations, including **NABH renewal, Nursing Excellence, and NABL**. Notably, Sri Venkateswara Institute of Medical Sciences is the only hospital in Andhra Pradesh to have achieved all these accreditations.

The overall patient load in both Out-Patient and In-Patient services as well as number of surgeries have been increased tremendously during the previous year. In addition, the Institute has started a new OPD services in **Geriatric Care and Adult Immunization Clinic**.

The Institute has successfully completed the faculty recruitment in accordance with National Medical Commission requirement. The Institute got approval for new PG courses in broad specialty clinical departments namely **Paediatrics, OBG, ENT, Ophthalmology and DVL**. The Institute has entered MOUs with neighbouring medical institutions such as **SVICCAR – TATA Care Foundation Hospital, SV Aravind Eye hospital** for Clinical and Academic collaboration. Additionally, an MOU was signed with **Intuitive Data Solutions Pvt., Ltd.**, to strengthen Academic and Research programmes.

I am pleased to share that the **Department of Cardiology** successfully completed **25,000 interventional procedures** during the previous year. Further more, the SVIMS Blood Centre was honoured National Blood Transfusion Council Award for excellence in blood transfusion services in February, 2025. The **Blood Bank** also achieved **200 single donor platelets** in 2025, an accomplishment achieved for the first time in the last two decades.

The institute launched a new initiative – **Srivari Vaidya Seva** aimed at leveraging National and International expertise for advancements in Patient care, academic and research, in accordance with the guidelines framed by Tirumala Tirupati Devasthanams. **SVIMS SEVA**, a student-led service programme at the OPD was expanded with enthusiastic participation from retired employees and volunteers, extending services to in-patient wards and ICUs.

The faculty of the Institute have been successful in securing **extramural research grants** from various Government funding agencies. I am pleased to note that many faculty members are also submitting intramural research proposals under the **SBAVP scheme**.

This progress has been made possible by the Blessings of the Almighty Lord Venkateswara, the continued support and guidance of **Tirumala Tirupati Devasthanams** and the constant encouragement of the **Government of Andhra Pradesh**.

I have been privileged to witness and be a part of the spectacular growth of this institution over the past two and half years. I sincerely hope and pray that, through our unwavering commitment to excellence **SVIMS will continue to scale greater heights in the years to come.**

MESSAGE

I am happy to learn that Sri Venkateswara Institute of Medical Sciences (SVIMS), is celebrating 33rd Anniversary Day Celebrations on 26th February 2026 and is bringing out a Souvenir "AKANKSHA-2026" to commemorate the occasion.

SVIMS since its inception in 1993 has been rendering remarkable service in the fields of patient care, medical education and research. SVIMS has emerged as a centre of academic excellence. It is gratifying to note that SVIMS, apart from providing modern medical care at affordable cost to the public - also ensures that the poorest of the poor receive health care benefits free of cost under Sri Venkateswara Pranadana Scheme with the support of Tirumala Tirupati Devasthanams and is performing remarkably well in the implementation of Dr. NTR Vaidya Seva, scheme of Government of Andhra Pradesh.

On this occasion, I congratulate the Director cum Vice Chancellor, faculty and staff of SVIMS University for their dedicated work in maintaining the excellence of the institute.

May the Lord Venkateswara and Goddess Padmavathi their blessings on the SVIMS University and the entire staff to enable them to continue to render excellent services.

Executive Officer

Dr. N.T.R. UNIVERSITY OF HEALTH SCIENCES, A.P. VIJAYAWADA**డా॥ యన్.టి.ఆర్. ఆరోగ్య విజ్ఞాన విశ్వవిద్యాలయం, ఆంధ్ర ప్రదేశ్, విజయవాడ****Dr. P. Chandrasekhar**

It is great pleasure that the **33rd Anniversary of the Sri Venkateswara Institute of Medical Sciences (SVIMS)** is being celebrated on **26.02.2026**. Functioning under the aegis of the **Tirumala Tirupati Devasthanams**, SVIMS exemplifies a unique synthesis of spiritual values, academic rigor and social commitment.

Established with the objective of delivering advanced tertiary healthcare to the **economically and socially disadvantaged patients with chronic diseases of the brain, heart, lungs, kidneys and blood**, SVIMS has progressively emerged as a premier institution in **patient care, medical education, and biomedical research**. The consistent integration of **evidence-based practices, contemporary technology and multidisciplinary learning** reflects the institute's adherence to national and global standards of excellence.

I am pleased to note the release of the institutional souvenir, "**Akanksha-2026**." The souvenir aptly documents the academic achievements, clinical services, and research endeavors of SVIMS, while serving as an intellectual repository and a reflective narrative of the institution's growth and aspirations.

The enduring maxim "**Vaidyo Narayano Harih**" finds meaningful expression in the ethical, compassionate, and scholarly contributions of the faculty, clinicians, researchers, and healthcare professionals of SVIMS, who continue to uphold the highest ideals of the medical profession.

I offer my prayers to **Lord Venkateswara** to bestow His blessings upon this esteemed institution and to inspire all its stakeholders to pursue excellence with integrity, dedication, and compassion.

I convey my best wishes for the **33rd Anniversary celebrations** and for the continued advancement of SVIMS as a center of excellence in healthcare and medical sciences.

(Dr. P. Chandrasekhar) 5/2/2026

From the Desk of the Registrar, SVIMS

MESSAGE

With the blessings of Lord Venkateswara and Goddess Padmavathi, we the members of SVIMS family celebrate the 33rd Annual day celebrations on 26th February 2026.

SVIMS has witnessed significant improvements in recent times with extended facilities for patients in the form of the start of geriatrics clinic, adult immunization program apart from the other initiatives like Pink bus, evening special clinics, free immunization program etc to name a few. SVIMS has achieved the rare distinction of being the only Govt hospital to have NABH, Nursing excellence and NABL accreditations. This shows our commitment to provide quality services with patient safety as our primary goal.

I congratulate all those who have contributed towards the compilation of “Akanksha” magazine. I appreciate the editorial team for bringing out another edition of the magazine.

I wish the entire SVIMS family and my best wishes for the Anniversary day function.

MESSAGE

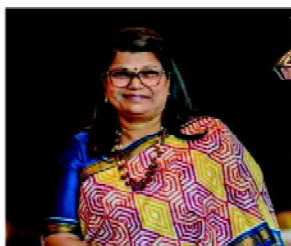

I am happy to be associated with SVIMS as **Governing Council member**. I am happy to note the steady progress in SVIMS in last one year.

Fifty new faculty have been recruited and five new Post graduate courses have been started. I am also happy to note that SVIMS is the only organisation in the state of Andhra Pradesh having NABH, Nursing Excellence and NABL accreditations.

With the active encouragement from the TTD Board and Government of Andhra Pradesh, I have no doubt SVIMS will become one of the best institutions in the country.

Place: Hyderabad
Date: 16/02/2026

Sri Nannapaneni. Sadasiva Rao
Member, TTD Board of Trustees &
Member - Governing Council, SVIMS

Om Namo Venkateshaya!!

Warm greetings to all stakeholders of SVIMS.

As a Board Member of TTD and a Member of the Governing Council of SVIMS, I consider it a great privilege and blessing to write this message for the souvenir.

It gives me immense joy to extend my warm greetings and heartfelt congratulations to Sri Venkateswara Institute of Medical Sciences (SVIMS) on the occasion of its **33rd Annual Day – Akanksha 2026**.

SVIMS has continuously upheld the values envisioned by Tirumala Tirupati Devasthanams, striving for excellence in healthcare, medical education, and research. Over the past three decades, the institute has grown into a centre of compassion and advanced medical service, touching countless lives and standing as a beacon of hope for patients across the region.

The theme **“Akanksha”** beautifully reflects aspiration, progress, and collective commitment. It is a celebration not only of achievements but also of the relentless dedication of the faculty, students, researchers, and staff who work tirelessly to elevate the standards of patient care and medical knowledge.

As a member of the TTD Board, I wish to place on record our appreciation for the exemplary services rendered by SVIMS. TTD will continue to support the institution in its mission to deliver affordable, high-quality healthcare inspired by the divine blessings of Lord Venkateswara.

May SVIMS continue to scale new heights in service, innovation, and academic distinction. I extend my best wishes for the success of **“Akanksha 2026”** and for many more glorious milestones in the years ahead.

I extend my heartfelt congratulations to each and every one of you on this momentous occasion. I wish "SVIMS" continued success in the years to come and hope it becomes one of India's premier healthcare providers and teaching institutions.

Thank you, and with best wishes,

Dr. Suchitra K. Ella

Foreword

It is a matter of great pleasure to pen this foreword for **AKANKSHA 2026**, the annual magazine of **Sri Venkateswara Institute of Medical Sciences (SVIMS), Tirupati**, brought out on the occasion of its **33rd Anniversary Day celebrations**.

Since its inception in 1993 as a super-specialty hospital dedicated to serving the poor, SVIMS has remained steadfast in its mission of delivering **accessible, affordable, and high-quality healthcare**, while simultaneously evolving into a premier university for medical education and research. Anchored in the values of service, integrity, and excellence, the Institute has grown into a comprehensive academic health system catering to the needs of the region and beyond.

The journey of SVIMS is marked by significant milestones expansion of broad and super-specialty services, excellence in undergraduate and postgraduate medical education, meaningful research output, robust community outreach programs, and sustained commitment to quality and patient safety. These achievements are a reflection of the collective dedication of our faculty, students, residents, nurses, and supporting staff, who work tirelessly with a shared sense of purpose.

Akanksha, meaning aspiration, truly mirrors the spirit of this Institution. The magazine captures the academic vibrancy, clinical accomplishments, cultural talents, and social consciousness that define campus life at SVIMS. It also serves as a valuable chronicle of the Institution's progress and the aspirations of its young minds, who will shape the future of healthcare in our country.

As a member of the Governing Council, I take pride in the steady progress of SVIMS and its unwavering commitment to societal welfare under the benevolent guidance of **Tirumala Tirupati Devasthanams**. I am confident that the Institute will continue to scale greater heights in patient care, education, research, and service to humanity.

I congratulate the editorial team for their sincere efforts in bringing out this edition of AKANKSHA and extend my best wishes to the entire SVIMS fraternity for a memorable Anniversary Day celebration and continued success in all future endeavors.

MESSAGE

My heartfelt congratulations to SVIMS on the occasion of 33rd anniversary. SVIMS has certainly come a long way from starting as hospital to disburse health care services to the poor and needy in the backward Rayalascema region in 1993 to establishing itself a full- fledged University of medical and allied health sciences, providing quality medical education and training at UG, PG and postdoctoral levels in addition to becoming a highly acknowledged research facility.

It is my great pleasure to be a part of this prestigious institution for almost two decades during its all round development and on the way to achieving the status of INI in near future. The Institute's accomplishments of accreditations of NABH, NABL and Nursing excellence and many others are a testimony to the vision of administration and hard work, dedication and commitment shown by the doctors and all categories of staff over the years delivering quality patient care and high standard of education and research.

May the Lord Sri Venkateswara's blessings stay with us always in all our future endeavors of becoming a pre-eminent organization both in health care and medical education sectors not only in India but also globally.

My best wishes to the SVIMS family.

Dr. Janaki Subhadra Peyyety

A MODERN SUPER SPECIALITIES HOSPITAL OF TIRUMALA TIRUPATI DEVASTHANAMS

SRI VENKATESWARA INSTITUTE OF MEDICAL SCIENCES, TIRUPATI

Introduction: Super specialty Hospital for the poor:

Late Sri Dr. N.T. Rama Rao, the then Chief Minister of Andhra Pradesh laid foundation stone for SVIMS super specialty hospital on 18th April, 1986. Sri Venkateswara Institute of Medical Sciences (SVIMS) was established as a super specialty hospital in the year 1993, at the foot hills of Lord Balaji, Tirumala Tirupati Devasthanams has been funding this institution since its inception as SVIMS was included in the 2nd schedule of AP Charitable and Hindu Religious Institutions and Endowments Act, 1987. SVIMS started functioning on 26th February, 1993 with 6 super specialty departments i.e. Cardiology, C.T. Surgery, Neurology, Neurosurgery, Nephrology and Urology with 200 beds and further expansion took place in phased manner. Now, SVIMS have 40 Super / Broad specialty departments with total bed strength is 1231. SVIMS was established to bring specialty health care services to the door steps of the common man, in the southern backward Rayalaseema region consisting of four districts covering 67,526 km² area with population of 15 million, prone for drought 20 times during the last 40 years.

SVIMS becomes University:

Later, in the year 1995 SVIMS became an University by Act 12 of Andhra Pradesh State Legislative Assembly. SVIMS was recognized under 12 (B) of UGC. As an University, SVIMS is offering full spectrum of medical courses (UG and PG in Medical, Nursing, Physiotherapy), Allied health sciences, paramedical courses including Biotechnology and Bioinformatics and post graduate programs in MD, DM, M.Ch. & Ph.D, in various broad and super specialties. The current student strength is 2061.

ACT 2021:

In the year 2021 SVIMS was brought under TTD umbrella vide Act No.24 of 2021 declared as TTD is Sponsoring Institution for SVIMS.

Sri Padmavathi Medical College for Women (SPMCW) is part of SVIMS, started in the year 2014. SPMCW is the 2nd Medical College exclusively for women in Government sector in India after Lady Hardinge Medical College in New Delhi.

The Medical College building was inaugurated by the Hon'ble Chief Minister of Andhra Pradesh & Chancellor of SVIMS, Sri. Nara Chandrababu Naidu Garu on 16-12-2016. The total cost of the project is Rs.372.95 crores. So far, 13 batches of MBBS girl students are admitted from the academic year 2014-15 onwards and six batch of students were successfully completed the course. The present intake is 175 students per annum.

SVIMS enabling Universal Health care:

Since a vast majority of patients are below poverty line, for its clinical operational funds, SVIMS benefits from TTD revenue grants & Pranadana Trust funds, Government of AP's Dr.NTR Vaidya Seva Scheme and various

other public financing sources, including Rashtriya Arogya Nidhi recently. Those patients not covered under the above schemes are provided free care by SVIMS to the tune of Rs.60 crores annually.

Contributions of SVIMS:

Significant contributions of SVIMS University cover educational, clinical, research and community outreach activities including Pink Bus cancer screening immensely benefiting not only the student population but also the patients and the society at large. Contributing to human resources for health, about 2000 students of medical, allied health & nursing are provided the state of art academic training with clinical orientation in various levels of health care under the canopy of the spiritual ambience bestowed at the feet of Lord Balaji.

A holistic cancer care is provided from prevention through diagnosis into provision of state of the art medical, surgical and radiation oncology managements as well as palliative care for the cancer patients of entire Rayalaseema and surrounding areas. A new addition is high dose radiation therapy for certain cancers, a rare facility in our country. Our flagship Cardiology program offers a full spectrum of non-invasive & invasive cardiac procedures. SVIMS Cardiology group performed the largest number of angioplasties in public sector in the state (>10,000) and reported the largest number of primary angioplasties in India.

To mitigate suffering from chronic kidney diseases, the largest dialysis facility under one roof in Southeast Asia is commissioned at SVIMS. The Neurosciences program serves as destination centre for all neurologic illness including neuro navigation & functional neurosurgery. Centre for Advanced Research (CFAR) is an advanced research facility for patient oriented discoveries, to understand the disease and its management (funded by donations to Sri Balaji Arogya Varaprasadini Scheme). An indexed journal of our own – JCSR (Journal of Clinical & Scientific Research), scientific publications over 1380 in national and international reputed journals published, projects running on extramural grants signify our research activity. Above all, conducting over 658 camps benefiting over two lakh patients as part of our community outreach programs is a heart-warming contribution of ours to the society.

SVIMS Institute of Trauma & Emergency care is bringing in several innovations in the management of trauma (“Golden hour”) and life threatening emergencies. A robust triage system and trauma/resuscitation rooms are commissioned. Fire, disaster, mass casualty drills have begun & practiced periodically. Our ICMR funded Viral Research & Diagnostic Laboratory does yeoman service at state level for diagnosis, tracking & mitigation of viral & other infectious disease outbreaks. Finally, SVIMS is the only institution in the country to publish online, real time information on quality & patient safety, demonstrating accountability, transparency as a high reliability organization.

Roadmap of SVIMS:

SVIMS has laid out a Road Map for the next decade, and is planning to develop various institutes of excellence in 10 branches viz., Cardiac Sciences, Cancer & allied sciences, Neurosciences, Renal Sciences, Trauma & Emergency care, Transplantation, Regenerative Medicine & Geriatrics, Women & Child, Gastrointestinal and Metabolic Disorders, Lung Disorders and Allied Health Sciences.

- ❖ Foundation stone laid on April 18, 1986 for “super specialty hospital for the poor”
- ❖ Established by Tirumala Tirupati Devasthanams (TTD) in 1992
- ❖ The hospital started functioning from 26.2.1993.
- ❖ “SVIMS University” came into existence by an Act of A.P. State Legislature in 1995.
- ❖ Patient care area : 932019.87 sft
- ❖ Direct patient services area : 89612.55 sft
- ❖ Average Area per bed : 104.81sft (range 81.7 – 154.7)
- ❖ For ICU : 154.73 sft (100-125 as per guideline)
- ❖ Wards : 98.41 Sft (75 as per guideline)

The constituent colleges are:

SVIMS-Sri Padmavathi Medical College for Women (SVIMS-SPMCW):

The college was established in the year 2014 with an initial intake of 150 students per year. From the academic year 2019-20 onwards, the intake increased to 175 students, following the implementation of the EWS (Economically Weaker Sections) category. Recognized as one of the leading institutions in Andhra Pradesh, the college boasts a strong reputation for its excellent faculty and state-of-the-art infrastructure, which provide high-quality teaching and training to students.

The foundation stone for the college building was laid by the then Hon'ble Chief Minister of Andhra Pradesh, Sri Nallari Kiran Kumar Reddy, on 20th November 2013. After completion of the construction, the college building was officially inaugurated by the then Hon'ble Chief Minister, Sri Nara Chandrababu Naidu, on 16th December 2016.

College of Nursing: The College of Nursing was established in the year 1996 with the aim of providing undergraduate, postgraduate education and conducting research in the relevant fields of modern nursing. The courses offered include B.Sc. (Nursing), M.Sc. (Nursing), and Ph.D. The college is equipped with excellent infrastructure, well-equipped laboratories and advanced teaching and learning facilities. The Indian Nursing Council has accredited the B.Sc. (Nursing) program with an intake of 100 students per year and the M.Sc. (Nursing) program with an intake of 30 students annually. In 2021, the Government of Andhra Pradesh issued G.O.Ms.No. 65 (dated 14.07.2021) under the General Administration (Services D), introducing a 10% reservation for the Economically Weaker Sections (EWS) for admission to educational institutions, starting from the academic year 2021-22. As a result, the intake for B.Sc. (Nursing) has increased to 110 students, and for M.Sc. (Nursing) to 33 students.

College of Physiotherapy: The College of Physiotherapy was established in the year 1998 and offers undergraduate, postgraduate and Ph.D. programs in Physiotherapy. In addition to academic programs, the college provides in-patient and out-patient services along with specialized clinics for obesity, pain management, paediatrics, advanced physiotherapy,

ergonomics and lifestyle modification. The college admission capacity is 55 students per year for the BPT (Bachelor of Physiotherapy) program and 27 students per year for MPT (Master of Physiotherapy) program, following the implementation of the 10% EWS reservation.

College of Allied Health Sciences: The University introduced paramedical diploma courses in the academic year 1995-96 for science graduates. The diploma program, which lasted two years, culminated in the award of a PG Diploma recognized by the Andhra Pradesh Paramedical Board. Later, in the academic year 2009-10, the University launched B.Sc. Paramedical courses, each lasting three years, in eight specialties. Since 2015-16, the duration of these courses has been extended to four years, and currently offering courses in ten specialties. All courses are recognized by the Andhra Pradesh Paramedical Board.

Life Sciences:

1. Biotechnology:

The Department of Biotechnology was established in the year 2003 and offers two programs: M.Sc. (Biotechnology) and Ph.D. The department's research focuses on the following key areas:

- Isolation, culturing, and differentiation of human hematopoietic stem cells (HSCs) into various cell types, including cardiomyocytes, astrocytes, oligodendrocytes, type II pneumocytes, osteocytes, beta cells of islets of Langerhans, podocytes, platelets, erythrocytes, and hepatocytes.
- Development of drugs targeting multidrug-resistant strains of *Staphylococcus aureus*.

Graduates from the department were successfully placed in prestigious industrial organizations at the forefront of drug and vaccine development. Many students have also excelled in national-level examinations such as Biotech Consortium India Ltd (BCIL), Council of Scientific and Industrial Research (CSIR), Graduate Aptitude Test in Engineering (GATE), and Indian Council of Medical Research (ICMR). The intake for the M.Sc. in Biotechnology is 17 students per academic year, following the implementation of the 10% EWS reservation.

2. Bioinformatics:

Established in 2003, the Department of Bioinformatics offers M.Sc. Bioinformatics and Ph.D. programs. Students from this department are often selected in national-level examinations such as GATE, ICMR, and the Bioinformatics Industrial Training Programme, New Delhi (BIITP). Many of the successful graduates are absorbed into industrial organizations and software companies. The Department of Biotechnology (DBT), Ministry of Science and Technology, Government of India, has sanctioned a Bioinformatics Centre to support teaching and research activities. The Bioinformatics Centre provides two studentships for final-semester M.Sc. Bioinformatics students and two traineeships for M.Sc. Bioinformatics students each year. These students are awarded a stipend of Rs. 8,000 per month for six months. The intake for the M.Sc. Bioinformatics program is 17 students per academic year after the implementation of the 10% EWS reservation.

FREE FOOD SCHEME:

This scheme was introduced by Tirumala Tirupati Devasthanams to provide free food for all boys and girls of UG courses. Initially, this scheme was introduced for Nursing, BPT, Allied Health Sciences, Paramedical students on 09.09.2022. Later this scheme was extended to MBBS girl students on 24.04.2023. As on date 2000 students are provided free food (breakfast, lunch, evening snacks and dinner) daily. Monthly expenditure for running this scheme is approximately Rs.57,95,000/-, the expenditure is borne by TTD and SVIMS.

Total No. of students admitted in all UG & PG Programmes for the Academic Year - 2025

S.No.	Name of the Course	Intake	Duration
1	MBBS	175	5 ½ years
2	MD & MS	66	3 years
3	DM & MCh	32	3 years
4	N.C Gupta Pulmonary Fellow	02	6 months
5	Certificate Courses for medical graduates	06	1 year
6	M.Sc. Nursing	33	2 years
7	MPT	27	2 years
8	M.Sc. Biotechnology	17	2 years
9	M.Sc. Bioinformatics	17	2 years
10	M.Sc. Echocardiography	01	2 years
11	M.Sc. Cardiac Catheterization Intervention Technology	01	2 years
12	M.Sc. Dialysis Technology	02	2 years
13	M.Sc. CPPT	02	2 years
14	M.Sc. Clinical Virology	02	2 years
15	M.Sc. Clinical Psychology	04	2 years
16	B.Sc. Allied Health Sciences	85	4 years
17	B.Sc. Nursing	118	4 years
18	Bachelor of Physiotherapy	55	4 ½ years
19	Post Basic Diploma in Nursing	23	1 year
20	Ph.D Programmes	19	5 years
	Total:	687	

OTHER ACCREDITATIONS:

NABH Accreditation Status:

SVIMS initiated the NABH accreditation process during **2015–16** as part of its long-term commitment to quality healthcare delivery.

- **Entry-Level Accreditation:**

13 January 2019 to 12 January 2021

• **Full NABH Accreditation:**

6 January 2022 to 5 January 2025

• **Surveillance Assessment:**

Successfully conducted with continuation of accreditation in **2024**

• **Re-Accreditation:**

Certificate received for the period 6 January 2025 to 5 January 2029

The sustained NABH accreditation reflects institutional adherence to national standards in patient safety, infection prevention, clinical governance, and continuous quality improvement.

Nursing Excellence Certification:

- **Nursing Excellence Certification awarded** for the period

24 June 2025 to 23 June 2027

NABL Accreditation Status:

The NABL Assessment was successfully completed and the certificate was received for the period from 21st January 2026 to 20th January 2030.

NAAC: The NAAC inspection was successfully completed from 21st August 2024 to 23rd August 2024.

SVIMS was accredited with a B Grade, valid until 28th August 2029.

NURSING BEYOND ROUTINE

Night duty in the CT ward begins when the world outside slowly learns how to sleep. Daytime noise dissolves into silence, conversations fade into whispers, and harsh white lights soften into a muted glow. The corridors stretch endlessly, amplifying every footstep. Silence never truly exists in a hospital—machines beep rhythmically, oxygen hisses steadily, and the occasional murmur or groan reminds us that pain and healing do not rest.

For most people, night brings rest

For nurses, night brings responsibility.

One such night duty became unforgettable for a young nursing student—not because of an emergency, but because of a quiet transformation within. He had traveled from Jammu & Kashmir to Tirupati, leaving behind familiarity and comfort in search of an uncertain future. That night, he was posted in the CT ward. He arrived hurriedly, adjusted his uniform, and took a deep breath before stepping inside. The shift appeared routine. Yet, unknown to him, this quiet night would change how he understood nursing—and himself. Nursing had never been his first dream. His interests once lay elsewhere, and when he entered nursing college, he carried more confusion than confidence. Student life often felt monotonous, shaped by rigid routines and constant supervision. Appreciation was rare, criticism frequent, and small mistakes outweighed sincere effort. Slowly, self-doubt grew. He often wondered if nursing was nothing more than endless routines performed in silence. That night, the ward sister assigned him to care for Sheikh Basha, the only patient who understood Hindi. The patient required close monitoring. Every two hours, without exception, his vital signs and blood sugar levels had to be checked and documented. Each round meant gently waking the patient, explaining the procedure, and ensuring comfort. During those quiet hours, the familiar feeling of invisibility returned. Nursing students often work behind the scenes, unnoticed and unacknowledged. It was

easy to question whether these repeated observations truly mattered. But as the night passed, subtle details stood out—the patient’s stable vitals, the calm rhythm of his breathing, and the quiet reassurance on his family’s faces. Gradually, a realization formed. Healing does not always come through dramatic interventions. Often, it is built through consistency, vigilance, and presence. These small, repetitive acts of care form the unseen backbone of recovery. The day of discharge arrived quietly. During the final round, the student checked the vitals one last time and completed the documentation with the same care as before. When he finished, the patient looked at him silently. His eyes were moist. “Thank you,” he said softly. “For staying awake... for looking after me.” No more words followed. His wife broke down quietly, tears slipping down her face. For days, she had trusted strangers with the life of someone she loved. With trembling hands, she offered some money—not as payment, but as gratitude. The student gently refused. In that moment, gratitude felt greater than anything money could offer. The room stood still, filled with quiet understanding.

As morning light filtered through the windows, the student stepped outside. The air felt lighter, but his mind was full. For the first time, he understood that care given in silence is both seen and felt. The long hours and repeated checks had never been wasted. They mattered. That night duty taught him an enduring lesson. Nursing is not merely a profession of routines and procedures. It is a responsibility rooted in compassion and commitment. Even when unnoticed, care carries profound meaning for those who depend on it. What began with uncertainty ended with clarity. Nursing revealed itself not just as a duty, but as a silent service that heals beyond medicine—one quiet act at a time.

2nd year B.sc Nursing, CON, SVIMS

A Warrior of the Wasteland

Every day of my mother's life followed the same quiet rhythm: wake, work, endure, repeat.

There were no milestones to mark her effort, no applause for her persistence. The labor that held our world together earned no wage and, therefore, no name. What she gave was expected. What she felt was absorbed into silence. She learned not to complain. She learned to continue.

Endurance was not her nature; it was her education. She lost her father before protection could become a memory. Childhood ended early, replaced by responsibility. Survival arrived before choice, routine before hope. While others learned how to dream, she learned how to stand.

Marriage offered no shelter. Living with an alcoholic required a strength that made no sound. Days passed without promise, comfort without certainty. This was her wasteland—a life where retreat was impossible and recognition absent. Still, she stayed. Still, she adapted.

As a child, I misunderstood her completely.

Once, I told her she could not cook well. I compared her food to what I tasted elsewhere, careless in the way only children can be. She grew angry, and I could not understand why. Now I do. That anger was not about cooking; it was the quiet pain of giving everything and being told it was not enough.

For years, I believed her life was ordinary. Distance taught me otherwise. Even now, she calls me every day—not to speak of what she endured, but to ask if I have eaten, if I am safe, if I am okay. This is how she loves.

She never asked to be admired. She never named herself strong. Yet she crossed a barren landscape without armor, without witnesses, without rest. She did not conquer the wasteland; she survived it without becoming it.

That is why I call her a warrior.

And only now do I realize how much of her strength walks quietly within me, turning wasteland into something greener.

The 5-Inch World

Don't know how this came up,
Addicted everyone here.
Cut down on the physical,
Everyone have in hands.
You may need kidneys for it,
People are ready to flaunt it.
Love letters to break-up,
Alarms to Newspaper.
It has replaced everything.
G- guru rules the knowledge,
People get anxiety reading,
Their own anxiety symptoms.
True laughs have become ROFL,
Real sorrows have become RIP.
Shopping in the streets exercise,
and fun to crying over poor quality.
Music radio to call up a stranger,
Bargain with rickshaw to G-pay.
Kids crying over pocket money,
Mother's secret kitchen stash lost.

Kids become professors to parents,
Parents think their kids are magicians.
This thing has changed it all,
When people cry over distractions,
Cyber Crimes, and many things.
It has bought people from far together,
Share their amazing memories.
Networking and communication easier,
Rising up to the pinnacle easier.
Whatever this 5-inch world,
Has got more importance now.
Without it 5minutes feels hour,
At boring places and 5minutes,
Becomes hours when we touch,
It before starting to study.
Don't ever forget this 500 million sqft
world,
Before this tiny 5-inch world.
Don't say me 5-inch will show 500
million sqft world.

The Search called Research

Everyone said this was it,
it is it and this is the end.
My mind didn't believe,
feeling of restlessness.
I went through it back and forth,
felt still something isn't right.
My heart stuck on,
I couldn't stop thinking.
Started to discover arena,
never seen before.
It started getting clueless,
felt like it was a mess.
Didn't give up, moved on.
Suddenly everything started,
to make sense.
The puzzle became interesting,
Felt like I was the top of world now.
Everyone said you are wasting time,
I didn't budge for a moment.
I went on and on onon,

in the end it was in front of board.
My topic had become someone's,
topic to unravel the unknown treasure.
The cycle continued and will continue,
the forever dogma of research.
It has been this way and will be this way,
no matter what enters the arena.
Countless doubts and Countless People,
making every second count with their
work.
This research every moment a
rollercoaster,
Has never failed to captivate the minds.
The endorphins released when working
on,
Never compare with anything.
The joy you get at every step of work,
Incomparable to anything material here.
This research the search of ultimate
things,
Sky can never be the limit of this work.

IT'S NOT YOU WHO MAKES....

NOT YOUR HEART APPEARS OUT,BUT YOUR DRESS AND LOOKS ARE JUDGED...

NOT ALL HAVE GOOD LOOKS, BUT YOUR BEHAVIOUR MATTERS A LOT.....WHICH BRINGS YOU PRIDE.

NOT THE BRAIN GIVES YOU OPPORTUNITIES IN THIS MATERIALISTIC WORLD...BUT YOUR CERTIFICATES PAVES YOUR WAY!!

YOU THINK, NOWAY.....BUT SITUATIONS LEAD YOU...TO DO MUST!!

YOU HAVE TO JUST ACCEPT EVERYTHING AND MOVE ON... CAUSE YOU HAVE NO OPTION TO QUIT... AS YOU ARE A HUMAN!!

“I WANNA LIVE FOR MYSELF” CHANGES TO “I HAVE TO LIVE FOR EVERYONE’S ACCEPTANCE”...

“THIS MAKES YOU LOW”

BUT STAY STRONG...

IT'S NOT YOU WHO MAKES EVERYTHING... BUT THE PEOPLE AROUND YOU AND THE SITUATIONS.... DOES EVERYTHING!!

NOTHING IS LOYAL... BUT EVERYTHING IS SELFISH IN THIS WORLD!!

JUDGEMENT IS ALWAYS A CONTINUOUS PROCESS... BUT BE STRONG AND LOYAL FOR YOURSELF!!

A CHILDHOOD WITHOUT ARMS TO HOLD ME

I am a child who never truly knew what the love of parents felt like. When I was four, my world quietly split in two. My parents separated—not divorced—but to a child, separation already feels like goodbye. At that age, I didn't understand reasons or responsibilities. I only understood absence.

I don't remember being fed by my mother's hands. I don't remember playing with my father without fear. No shopping trips, no family tours, no moments where I felt chosen or protected. Only empty spaces where memories should have lived.

I stayed with my father until I was nine. Then my mother returned to my life, like a season that comes late. She worked for me. She tried, in her own way. But when I was thirteen, she left again. And this time, I understood what leaving meant.

Years kept moving forward, but my sadness stayed exactly where it began. It grew quietly, like a shadow that never leaves your side. I learned early that a child without emotional roots grows up doubting their own worth.

I carried disadvantages no one could see. Fear of abandonment. Difficulty trusting love. A heart that learned to survive before it learned to dream. While other children leaned on parents, I leaned on silence.

But silence did not defeat me. One day, I decided I could not remain broken. I chose action over helplessness. I walked out of the place that hurt me and forced my parents to face a truth they avoided.

I fought—not with violence, but with desperation, pain, and determination. I blackmailed them, not out of hatred, but out of a child's final hope to have a family under one roof.

It took time. It took effort. It took more strength than a child should ever need. But today, my parents live together in one home, without disturbances. Not perfect. Not magical. But peaceful.

Nature taught me what life never did. A seed buried deep in the soil feels forgotten, but darkness is where roots grow strongest. A river cuts through rock not by force, but by patience. A butterfly survives suffocation inside a cocoon before it learns how to fly. A tree stands tall not because storms spared it, but because it endured them.

Like nature, I am still healing. Like nature, I did not give up on growth. I am proof that a child raised without love can still learn to create stability. That pain can be turned into purpose. That broken beginnings do not decide final destinations. I am not just a child of separation. I am a survivor of silence. And my story is not over yet.

KAGITHI RAJESH

2nd year B.Sc Nursing, CON, SVIMS

From Silence to Strength

When I was a child, I faced abuse that left deep scars on my heart and mind. At an age when I should have felt safe, carefree, and loved, I instead learned fear and confusion. That experience created a heavy impact on my life—one that followed me quietly for years.

Because of it, I lost my confidence. I lost my comfort in people, my trust, and my hope. I began to feel different from others, as if I didn't belong anywhere. Smiling felt forced, and speaking felt risky. Slowly, I started withdrawing from the world.

Now I am 18 years old. I often choose isolation, not because I hate society, but because it feels safer to be alone. Silence has become my shield. Yet, behind this silence, my heart is full of dreams. I dream of becoming something more than my past. I dream of success, peace, and a life where I feel free.

But the shadow of that childhood abuse still holds me back. It whispers doubts into my mind and fear into my steps. Even when I want to try, something inside me freezes. Still, despite everything, one truth remains strong—I want to achieve my dreams. I refuse to let my pain be the end of my story.

Nature reminds me that transformation is always possible. A butterfly begins life crawling, confined to the ground, wrapped in darkness inside a cocoon. Yet, it does not stay there forever. One day, it breaks free, spreads its wings, and learns to fly. Flowers bloom even after harsh storms, and bees turn simple pollen into sweet honey through patience and effort.

Like them, I am growing—slowly, silently, but surely. My past does not define my future. Just as nature heals and renews itself, I too will rise, transform, and chase my dreams with courage.

KAGITHI RAJESH

2nd year B.Sc Nursing, CON, SVIMS

A call to Serve

Oh, to be A doctor,
but a different turn, was taken to be a nurse

struggling heavy heart met something profound
dissatisfaction that came to stay in serving
mankind

where new purpose was first awakened.
A higher truth was clear.
By grace divine, all doubts disappeared.

To Be My Self

I want to be me
authentically true me

In every way, in all I do
I won't be confined to stereotypes
free to live beyond their constricting thoughts

If they say I'm wrong I'll still stand tall
embracing my true self giving it my all

Anxiety

Fear
starts a tiny seed
A little doubt, a simple need
But in that fear,
To find power
to shine, A stronger path A new design.

R.Vasanth Raj

3rd Semester, B.Sc Nursing, CON, SVIMS

HER SWEAT MY SUCCESS

My mother is a mason, strong and
tireless.

She labors day after day, brick by brick,
never complaining.

Injuries come, but tears do not fall for
pain.

Her hands bear the marks of hard work,
her heart holds the hope of a child.

I watched her silently, learning what true
strength means.

Her sweat built not just walls, but the
foundation of my dreams.

I studied, I grew, I worked hard, and
today I stand first in my studies.

Her sacrifices were not in vain; they shaped
the person I am.

Now, the village praises me, but I know the
real hero—

Her eyes shine, not with sorrow, but with
pride and joy.

Her happiness blooms in seeing me succeed,

And her responsibility, her love, her labor,
continue silently, endlessly.

A mother's strength is quiet, her joy
profound,

And a child's success is the reflection of her
love

KAGITHI RAJESH

2nd year B.Sc Nursing, CON, SVIMS

He is the One

He is The one who gives more importance to me,
 He is the one who makes me smile when I am sad,
 He is the one who saves me from any critical situation,
 He sometimes become the villain to protect me
 from taking or committing any wrong decision,
 He is the one who I love the most,
 He is my teacher who taught me how to deal with other's,
 He is the one who never says no to any of my wishes,
 He is the one who accepts all my childish behaviour,
 He is the one who can calm my anger,
 He is my king who makes me feel like I am a princess,
 He is my life coach who shows the correct path,
 And He is the one, the one is my "FATHER".
 Thankyou for everything.....

అమ్మ మనసు

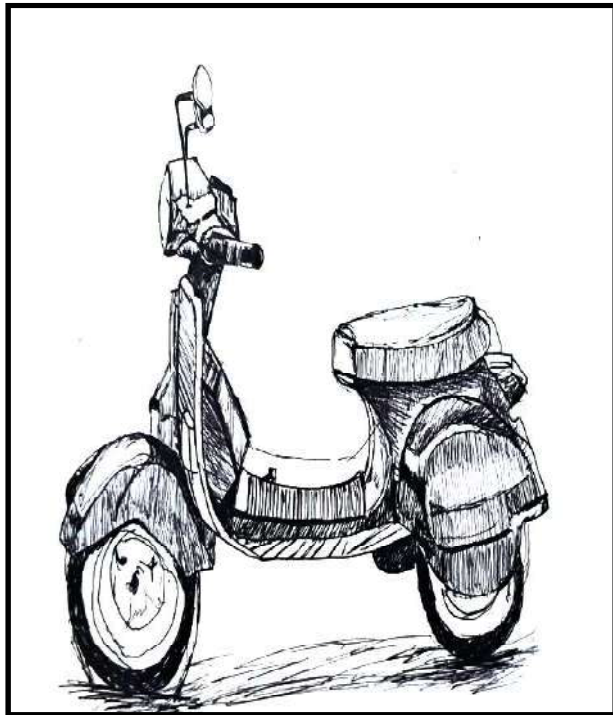

మా అమ్మ పరిస్థితి ఇప్పుడు ఎలా ఉంది
 డాక్టర్ గారు ? టెస్ట్ గా అడిగాడు ఆ ఇంట్లో....
 భోజనం చేసిరా ? అడిగాడు డాక్టర్, గడియారం
 చూస్తూ, ఆ ఇంట్లోకి
 ఆ ప్రశ్న ఎందుకొ అనవసరంగా అనిపించింది
 అతనికి, ఇలా సరి, ఆ... ఇప్పుడే ! చేసాను అని జవాబు
 ఇచ్చాడు. మా అమ్మ పరిస్థితి గురించి చెప్పుకో దాక్టర్ ? అడిగాడు
 డాక్టర్.
 "మీ అమ్మగారు ఇకలేరు, రెండు గంటల క్రితమే..."
 అని చెప్పాడు డాక్టర్.
 అన్యాయం, ఇంకా చలవుగా చెబుతారా ? తీవ్రంగా
 అడిగాడు డాక్టర్.
 సమాధానంగా, ఆ ఇంట్లో చూపించాడు. అది తన తల్లి
 డాక్టర్ కు రాసిన పత్రం. "మా అమ్మాయి ఆకలితో తట్టుకోలేదు. ఏదైనా
 మధ్యాహ్నం బంటిగంటకు భోజనం చెయ్యాలి"
 నేను అలాంటి చేసిపోయానా సరి వాడితో చెప్పుకుంది.. డాక్టర్.
 ఈ ప్రపంచంలో ఎంత పట్టినా కానరానిది తల్లి
 శాశ్వతం...
 అలాంటి తల్లికి మనం ఇవ్వ గలిగినది ఏంటి ?

TIRUMALA TIRUPATI DEVASTHANAMS, TIRUPATI

SRI VENKATESWARA INSTITUTE OF MEDICAL SCIENCES

OM NAMO VENKATESAYA

AN APPEAL – SERVICE TO HUMANITY IS SERVICE TO GOD

Located at the foot hills of Lord Balaji, Sri Venkateswara Institute of Medical Sciences (SVIMS, Tirupati) performs yeoman services in tending to the healthcare needs of the poor & underprivileged. It is funded largely through Tirumala Tirupati, Devasthanams (TTD) and philanthropy. Through the generosity of donors, the trust – **Sri Venkateswara Institute of Medical Science** – provide us the lifeline to sustain our service to God through service of humanity. Our clinical, educational and research missions are focused on health for underserved.

Our ever growing **mandate** of service to the underserved remains **large** – while the **resources** are **limited**. It is only through the generosity of donors, that SVIMS sustains. I am requesting your kind attention urgently to consider donation to SVIMS.

Everyday more than 1000 patients are coming to OP and IP treatment at SVIMS. Mainly Oncology patients are coming with their attenders and for staying one or two more days. For these people patient attenders choultry is required. We are planning to construct this. We are requesting your good selves to help your hand for this noble cause. The further details of donation to SVIMS are as stated below.

- 1) Donors who are affordable more than Rs. 1000/- of donation, SVIMS is provided exemption certificate u/s 80G with 50% Exemption.
- 2) Donors who are affordable more than Rs. 1000/- of donation, to Sri Balaji Arogya Vara Prasadini Scheme (SBAVPS)-will get 100% u/s 35 (1) (ii) for corporate donors (or) u/s 80 GGA for Individual & others.
- 3) The donors are provided privileges for accommodation, darshan and prasadam of Lord Venkateswara at Tirumala by T.T.D for the donation of Rs. One lakh and above.

For further details, please contact the Chief Accounts Officer, SVIMS, Tirupati
