SPECIAL ISSUE

SRI VENKATESWARA INSTITUTE OF MEDICAL SCIENCES (SVIMS)
TIRUPATI, CHITTOOR (DT), A.P., INDIA

A UNIVERSITY BY AN ACT OF ANDHRA PRADESH STATE LEGISLATURE IN 1995 RECOGNIZED BY UNDER SECTION 12 (B)

A Serene Setting for
Healing Hand

Name: Dr. Veldurti Ananta Kiran Kumar
Designation: Assistant professor of Neurosurgery at Narayana Medical College Hospital, Nellore.
Address:
Mobile No.
Email Id:

SVIMS is a temple of learning. Blessed are those who have studied here and travelled the world in search of better prospects. Having done residency programme at SVIMS and also worked as assistant professor I had the opportunity to get exposed to all types of neurosurgical cases, be it open/minimally invasive neuro and spine surgeries including neurotrauma, pituitary, skull base, vascular, CV junction, stereotaxy etc. We are blessed to have been mentored by excellent, learned faculty from other institutes especially Dr BCM Prasad, Dr. Ramesh Chandra, Dr Varaprasad, Dr Tatineni Suresh and all our senior colleagues; Dr Sunil, Dr E.Srinivas, Dr. Maheswar Reddy, Dr. Sasidhar and Dr M.L. Ananth in the department. It is only after coming out of the institute, we come to know what we miss, the excellent academic rosters, The Seminars, The Neuroradiology sessions, Case discussions, Journal clubs, Tumor board meetings, Mortality meetings, and especially going out for a cup of tea with boss and other colleagues after the days busy schedule. After graduating from SVIMS, I got plenty of opportunities to work abroad and also at other cities in India. But the feeling of serving the people of my country made me and my parents proud. Hence I decided to stay in India. If given an opportunity, I would like to serve as a faculty in the department of neurosurgery for life time in this esteemed institute, with the blessings of Lord Venkateswara.

Name: Dr. Madhavi K.
Designation: Assistant Professor & Head of Musculoskeletal Radiology Unit.
Address: Department of Radiology,
Christian Medical College & Hospital,
Ida Scudder Road,
Vellore - 632002
Mobile No. 7845483589; Email Id: madhoo116@gmail.com

Significant academic achievements:

Working in CMC Vellore since 2013 (completed 5 years) and as Assistant Professor since 2014 July.

As speaker at many National and State level conferences

1. Ultrasound guided core needle biopsy of breast lesions - How I do it - 3rd National Conference of the Breast Imaging Society of India - BISICON 2015, India on November 14th & 15th 2015.

2. Breast MRI at ABSICON 2016 on 1st July Bangalore.
3. Salivary gland imaging - Dr. Rajendra Rao CME, AP State chapter IRIA
4. Imaging of spine trauma in monthly state IRIA, Vellore Subchapter on July 16, 2017.
5. Imaging of ankle ligaments and tendons - MACE 2017, BIR, Chennai on 28 Oct 2017
6. Approach to secondary osteoporotic vertebral fractures - MSK CME, Coimbatore subchapter at Ganga hospitals, Coimbatore
7. Spine trauma imaging - Emergency radiology conference at AIMS, Thrissur on 28th Nov 2017
8. Ankle MRI at AIMS, Thrissur on 27th Nov 2017

As speaker / panelist at the conferences held in institute level (CMC Vellore)

1. Imaging of the facial nerve anatomy and pathology - Radiology Department, Dec 2015.
2. Mammography- PRC 2015, Radiology Department.
3. Symposium on breast malignancy in CME by endocrine surgery in Dec 2015.
4. Benign breast disease - mini CME by endocrine surgery, March 2016.
5. Musculoskeletal for exam - PRC 2016, Radiology Department.
6. BIRADS - Guidance on potentially confusing issues, Breast Radiology CME, Sep 2017, Radiology Department.
7. MRI Breast - interesting cases, Breast Radiology CME, Sep 2017, Radiology Department.
8. Panel discussion on the current AJCC staging of head and neck cancers, Nov 2017.
9. Panel discussion on oral malignancies in HN Surgery CME on 2nd Dec 2017
10. Musculoskeletal exam cases - PRC 2018, Radiology Department.
11. Imaging of the Charcot foot -Radiology Department, Feb 2018.

Significant achievements in fields not related to academics: None

Publications:

1. Patellar tendon enthesitis as initial manifestation of ankylosing spondylitis: An atypical presentation- Case report in BMJ
2. Gouty sacroiliitis versus spondyloarthritis of sacroiliac joints on CT - original paper in clinical rheumatology
3. Imaging differentiation in unilateral sacroiliitis

Name: Dr. V.L. Asha Latha, Ph.D
Designation: Assistant Professor in the Department of Biochemistry at Kerala Medical College and Hospital, Palakkad (Dist), Kerala
Address: W/o Hari Prasad Podamekala,
H. No: 8-109, 1st floor, 3rd cross, Rayal Nagar, R.C. Road

Academic Qualifications

- 2010-2015: Ph.D in Medical Biochemistry**, Sri Venkateswara Institute of Medical Sciences (SVIMS) University, Tirupati, A.P.
2005-08: Masters in Medical Biochemistry- Sri Venkateswara Institute of Medical Sciences (SVIMS) University, Tirupati, A.P.
2002-05: Bachelor of Science in Biochemistry-Sri Venkateswara University, Tirupati, A.P.
2000-02: Intermediate Education-Bharthi Junior College, Kadapa, A.P.
2000: Secondary School Certificate (SSC)- Chandra Mouli High School, Kadapa, A.P.

Teaching Experience

- Tutor** - Department of Biochemistry, Kerala Medical College and Hospital, Palakkad (Dist), Kerala, from 11-12-2014 to 31-03-2017. **(2 years 3 months)**
Tutor - Department of Biochemistry, Shantiram Medical College and Hospital, Nandyal, A.P. from 01-02-2009 to 31-07-2010. **(1 year 6 months)**

Name: Dr. K. Venkatesh

It is indeed the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Associate Professor & Head Dr. P.V.G.K Sarma and my guide Dr. P.V.G.K Sarma. Studying at SVIMS has helped me in shaping me professionally. The vast clinical material available here along with the laboratory facilities helped me in gaining clinical knowledge as well as acquiring laboratory skills to survive in these competitive times. Though I was from a non medical background, the residents of the department helped me in understanding the clinical correlations of laboratory tests and their applications. The departmental seminars, Chalk and talk sessions, laboratory postings all helped in my multifaceted development. It enthused in me the confidence of being able to take up my role in future that of a teacher, working in a laboratory, working in a research centres etc. Through my dissertation work I learnt the basics of conducting research which will help in future when I intend to do my PhD. The department headed by Associate Professor Dr. P.V.G.K Sarma garu taught us not only Biotechnology but the very importance of understanding the basics in the subject and its application to sciences. I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

I am happy to be a member of the Alumni association of SVIMS. I did my MD in Anesthesiology between the years 2006 to 2009 from SVIMS, Tirupati. It gives me immense pleasure to extend my association with SVIMS as a Resident and Faculty as well (presently as Associate professor) in the Department of Anesthesiology. I will be always grateful to our department as a whole. I also hold good memories with my fellow residents and faculty from other departments. Academics are well structured, interactive and interesting in the department of Anesthesiology. The guidance of my Professors will always be remembered while teaching students. The cool climate, serene atmosphere and greenery within the SVIMS campus are always mood refreshing. I feel very proud to introduce myself as "Graduated from SVIMS"

I would like to convey my regards for the idea of SVIMS, Alumni. I am proud to say that I graduated from SVIMS & being part of the institute. I am very grateful to my professors Dr.BCM.Prasad sir and Dr.V.V.Ramesh Chandra sir for guiding me in the field of Neurosurgery. Now I work at a district level super speciality hospital. Under their guidance in SVIMS I had the opportunity to assist and perform a spectrum of Neurosurgical cases. As a well equipped department, I had the opportunity to take part in many surgeries which gave me strength and courage to take up difficult cases even at a district level hospital. During my stay at SVIMS in the department of Neurosurgery along with academics and surgical skills my mentors taught me a systemic way to deal with the patients, to give the best to the needy patients. In my private practice there was not even a single day has gone without remembering my teachers. A strong foundation is always necessary for sound success. Dr.BCM.Prasad sir and Dr.Ramesh Chandra sir are the strong pillars on which the department stands and where i stand now is all because of them. The skills acquired from my department in SVIMS are always appreciated by my colleagues here. I always feel happy when my colleagues here praise my teachers because of me. I feel proud to say that i am a student of Dr.BCM.Prasad sir and Dr.Ramesh Chandra sir and I am from SVIMS Tiurpati.

It is my luck to get Neurosurgery training at SVIMS university located at footsteps of **LORD VENKATESWARA**. It is my pleasure to share the wonderful years I had under the auspices of Department of Neurosurgery at SVIMS. Neurosurgery training is an important phase in my academic journey after the numerous formative years of medical schooling. I cherished the feeling of studying, learning surgical skills, method of clinical examination training at SVIMS University, which focused on producing good doctors - neuroscientists, along with overall skill development with seamless mix of academics and extra-curricular activities. My teachers Prof B.C.M Prasad sir and prof RameshChandra sir were dedicated and committed in training us with genuinely caring. I would always be grateful to SVIMS University for giving me multi dimension learning by providing the apt mix of academics, surgical skills, clinical examination, and compassion toward the suffering, attitude and leadership, overall a good responsible doctor in society SVIMS University made me focused and experiences gained during the training course of 3 years have contributed to y professional growth as well in later years. SVIMS University has nurtured my aspirations and laid me foundations to realize those aspirations.

Now Iam serving society at Anantapuramu – taking the neurosurgical specialty in to rural areas of Anantapuramu and treating the patients suffering from neurosurgical ailments. This is all due to blessings of my teachers, mentors, seniors Ultimately by the mercy of LORD VENKATESWARA..

4. **Ramesh B, Rajesh B, Bhargav PRK, Aparna Varma B, Is the clinical spectrum of Hashimoto's thyroiditis in children different from adults? Oral paper presentation at ITSCON 2015, Kolkatta.**

Dr. C. RAGHAVENDRA REDDY
M.A., M.Phil., Ph.D., B.Ed., PGDMLT, PGCTE, PGDTE (CIEFL - Hyd)
Assistant Professor of English
Sree Vidyanikethan Engineering College
A. Rangampet - 517102
Tirupati, AP

It is my privilege to express few words about my experience that I gained and the life skills I realized during and after completion of PGDMLT at SVIMS University. I am greatly indebted to all the professors, technicians, colleagues who taught me professionalism. Hadn't I did PGDMLT at this prestigious institution, the things would have been different in my career. I gained knowledge and conscious on health. If we want to achieve anything in our life we should be healthy. When we are healthy we can try to achieve anything and everything. I observed the way to communicate with people. I learned convincing people at times when the situation demands. I strongly believe that everything depends upon the way we convey. Everyday is learning and my zeal to learn started at this institute.

The second aspect I would like to emphasize on determination. What I learned from my professor is simple life with noble thoughts. The progress flow charts I prepared in this institute motivated me to know where I stand. The third aspect that I would like to stress on patience that I gained while doing night duties at this institute. Under the guidance of Prof. and Dean Dr.Srinivasa Rao, the terms quality control, accuracy and precision that I learnt during my course have been influencing me a lot. This helped me do my research and attain PhD degree. Finally it is the attitude that changed me to some extent. In promoting discipline, the above said aspects motivated me to serve the students as a senior teacher of English apart from being trainer, Resource person, Assistant professor, Associate professor, HOD, In-Charge Placement and Training officer at different Institutions and Universities.

First of all I am happy to be a member of the Alumni association of SVIMS. It gives me extreme pleasure to extend my association with SVIMS as an Assistant professor in the Department of Anesthesiology and CCM and reside at the foothills of Lord Balaji. I was graduated from SVMC Tirupati and did my MD in Anesthesiology from the year 2012 to 2015 and PDF in Critical care from 2015 to 2016 from SVIMS Tirupati. I will be always grateful to our department as a whole including the faculty, seniors, juniors and technicians. I also hold good memories with my fellow residents and faculty from other departments. My deepest gratitude to our then HOD Dr. M. Hanumatha Rao sir and our present HOD Dr. Aloka Samantaray sir who were also guides for my MD and PDF thesis for their esteemed guidance, unflinching support, keen surveillance, inestimable aid and continued inspiration. Their special concern, insistence on perfection and responsibility showered towards me to go beyond words. Academics are well streamlined, interactive and interesting. The guidance of my mentors will always be remembered while teaching students. Our annual CME BAPU (Balaji Anesthesia Postgraduate Update program) is very useful in updating our knowledge, improving stage performance skills and interaction with esteemed guest faculty from all over the nation. The cool climate, serene atmosphere and greenery within the SVIMS campus are always mood refreshing.

I am old student of SVIMS- Department of Radiology ().

SVIMS University radiology residency program prepared me very well for the NATIONAL BOARD exams by offering multiple mock oral exams, review sessions as well as practical exams. The radiologists are truly amazing and willing to dedicate time despite their busy work schedule to teach and prepare residents for the exam.

SVIMS University radiology residency program also prepared me well for my current practice in various imaging modalities like radiographs, barium contrast procedures, ultrasonography Doppler , CT , MRI and PETCT .I also got to do many procedures during my training because of the small number of residents at SVIMS. For example, I was able to do many ultrasound guided as well as CT guided biopsies and procedures.

With all the funding and electronic resources that SVIMS provides, every resident will have everything they need to learn the vast array of material. Having CMEs and research conferences funded has allowed us to focus on learning, rather than worrying about debt.

In addition, the program provides many opportunities to learn REPORTING skills, all of which are critical to practice . As someone who has now done locums in a variety of radiology departments, I can say that I am more than prepared for practice and would recommend SVIMS's radiology residency program to anyone who is interested. “

Overall, I'm very happy with the radiology residency training I received at SVIMS University. “
Thanking u sir

I did my M.Sc Biotechnology during 2006 to 2008 at Department of Biotechnology, SVIMS and Currently I am working as Assistant Manager, Quality Control, Biocon, Bangalore.

It is indeed the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Associate Professor & Head Dr.P.V.G.K. Sarma and my guide Dr Dr.P.V.G.K. Sarma. Studying at SVIMS has helped me in shaping me professionally. The vast clinical material available here along with the laboratory facilities helped me in gaining clinical knowledge as well as acquiring laboratory skills to survive in these competitive times. Though I was from a non medical background, the residents of the department helped me in understanding the clinical correlations of laboratory tests and their applications. The departmental seminars, Chalk and talk sessions, laboratory postings all helped in my multifaceted development. It enthused in me the confidence of being able to take up my role in future that of a teacher, working in a laboratory, working in a research centres etc. Through my dissertation work I learnt the basics of conducting research which will help in future when I intend to do my PhD.

The department headed by Prof Associate Professor & Head Dr.P.V.G.K. Sarma garu taught us not only Biotechnology but the very importance of understanding the basics in the subject and its application to sciences. I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

Mobile No: 9494942224
Email Id: drmaameen@gmail.com

I am old student of SVIMS- Department of Neurosurgery (2011-2014).

My experience in SVIMS has been overwhelmingly encouraging and it makes me very nostalgic sharing my views about the institute. Being a tertiary care Centre, SVIMS is a very busy hospital and accordingly the work schedule as resident is busier. Thus, during my residency, I had an opportunity to see a wide range of cases being referred from the nearby districts with various neurosurgical problems. The hospital was favourable for all classes of people as they encourage many health schemes to accommodate expensive treatment for needy patients.

The working atmosphere at SVIMS was quite entertaining in spite of the busy work schedule. Moreover the faculty and staff are extremely friendly and encouraging. Even the off duty timings were well utilized by either discussions related to complicated surgical decisions or they would be well spent in other group extra-curricular activities like sightseeing, hiking etc.

Name: Dr G Sivaram Naik
Designation: consultant Neurophysician,
 Address: Pinnacle hospitals,
 Visakhapatnam

It was the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Senior Professor B.C.M. Prasad and my guide Dr B.C.M. Prasad . Studying at SVIMS has helped me in shaping me professionally and spiritually. The various topics covered under the clinical meetings like research presentations, spotter presentations, Capsule on an investigation, CPC discussions help in applying the clinical knowledge in a more appropriate and useful way. The Senior faculty here encourage interdepartmental discussions as and when required which gave us an opportunity to discuss with other departmental colleagues and taught us the concept of multidisciplinary approach to any case and thus helped us in better application of our clinical knowledge for patient management.

The department headed by Prof B.C.M. Prasad garu taught us not only Neuro surgery but the importance of basic sciences in medicine which helped me in getting a grip over the subject. Professor B.C.M. Prasad gave us all the support for our thesis and research work.

I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all theirs endeavours.

Name: B.M.Madhavi,

Present position Nursing Tutor

About Institution :

It was the year 1998, I had began my journey in this prestigious institution. I had walked long way towards my goal. I believe my learning will actually starts from day one. I also believe the stories created beyond the boundaries of the University have been equally helpful. Everyone here has had their own share of excitement and stories that they will carry along their life. As a student of SVIMS, I had a very different experience.

Graduation day is the day of fulfillment of one's dream. Holding degree in our hands is great experience. I am very much excited to hold my degree and felt myself fulfilled.

Also I would like to thank my Teachers and Friends as well as my College for improving me every day, and helped me to achieve my goals with more confidence and intelligence.

I feel proud to be a part of SVIMS family as Nursing Tutor in the College of Nursing from where I actually graduated. And also I thank them for giving me all the opportunity to master my skills, develop my knowledge and explore my ideas and improve my attitude towards Leadership, Nursing care and outlook in life. I would Like to Continue My Service till the end to SVIMS University with the blessings of Lord Venkateshwara.

Position :Asst. Professor

About Instituton:

Very happy to know that first alumni meet is going to be held on 25/02/18 and release of svims alumni chronicle as soft copy.

The following are the few details of myself..

I am immensely happy to say that, myself graduated from the SVIMS-College of Nursing (1996-2000 batch) as FIRST batch student. I am very grateful to the teachers who molded us both theoretically and practically efficient with sound knowledge and skills which are useful throughout our professional and personal life.

Mrs. Kameswari
Tutor
College of physiotherapy
SVIMS
Tirupathi

My warm greetings to SVIMS family as we have reached a remarkable milestone. I feel always blessed to be a part of this repatriated SVIMS family. I can proudly say that we the first batch 1998 undergraduates are the glowing stars of the college of physiotherapy forever. My experiences in the college has given me many changed to sharpen my skills and mould as good professional. As the years gone, situations made I have learnt from the teaches and universities made me to stand in my field of choice.

The transformation as a teaching faculty to enhance and share my knowledge in SVIMS was a real golden opportunity in my life. With a great reverence. I thank my teachers and university for making me a part of silver jubilee celebration

Lord venkateswara shower his blessings forever on instituite more to flowish well and extend the services and research.

It is with delight, I pen these few lines as an alumni of our institute (SVIMS) on occasion of its silver jubilee celebrations.

By the grace of Lord Venkateswara, I stepped into this premier institute in the year 2012, which I never dreamt off. I am fortunate to enter into the family of Anaesthesia, SVIMS which has produced many good Anaesthesiologists under the guidance of eminent teachers. I enjoyed my residency work, academic, clinical and research. Our department is advanced like any other national institute which provided us an environment to excel in the field of Anaesthesiology.

Name : Mrs. K. Chandravathi, M Sc. (N)
Designation : Nursing Officer, BIRRD (T)
Hospital, TTD, Tirupati

About institution:

How many institutions we met in our life will not give same experience and emotional bond as what we had with our mother institution.

SVIMS is my mother institution which gave very good platform and eminent teachers and excellent body of knowledge base with stress free and refreshing campus for me with that I personally developed strong competitive skills in getting my M Sc Nursing seat in Govt. College of Nursing, Hyderabad by getting 8th rank in state wide entrance test and 2 rank in results of my M Sc nursing course, 2nd rank in TTD recruitment for the present position what I am doing and 2nd rank in Ph.D entrance examination. By this occasion I am conveying my sincere thanks and gratitude to my institution and teachers, without them I may not to be the one what I am now. At last not the least I am Proud to say that “I am the product of SVIMS College of Nursing”. Thank you.

Awesome experience. Lots of sleepless nights, caffeine and new procedures but most importantly lots of knowledge, enthusiastic teachers, new techniques and an inspiring learning atmosphere. I especially loved our department, spent many many hours there (trying to help patients and prepare for seminar) Learned surgeries, developed new skills and improved my attitude towards patients. Thank you SVIMS for a wonderful time and marvelous experience.

Name: Mrs. V. Kusuma

About Institution:

Education is a marvelous blessing, and I am extremely appreciative of the opportunity I have to attend college. There are so many individuals who played a part in getting me to where I am today. This letter will in no way cover the multitude of the appreciation I have for each and every one of you, but hopefully, you will catch a glimpse of my gratitude.

I want to start off by thanking the many teachers who have put up with me throughout my time at SVIMS. There is not enough time in the world to effectively thank each and every one of you who contributed to my education. So, thank you for teaching me not only in the classroom, but outside of it, as well. Thank you for always encouraging me to try my best and for never giving up on me. Thank you to the wonderful secretaries who always greeted me with a smiling face. You taught me more than you will ever know, and without all of you, I would not be where I am today.

Husband & parents thank you for all you have done for me. I appreciate the time and effort you invest into me and my education, the many life lessons you teach me on a daily basis, the many phone calls and handwritten letters that kept me in the loop and the sass I get from you, but most importantly, I want to thank you for supporting me in all I do.

Best wishes,

Your's

(V. Kusuma)

Name: A. Vasudeva Bhatt

 Email Id: sujayav1982@gmail.com.

I A. Vasudeva Bhatt, feeling very proud that I am a student of esteemed Institute SVIMS. As I belong to first batch PGDMLT 1993-1995 student, I learned not only the subjects taught by my professors, led by my senior technicians, but also I learned how to tackle the problems in my life. The practical knowledge which I got at my institute, made me the best Lab technician. I got two times best lab technician awards. Even in my long services at area hospital, SriKalahasthi then CHC , Chinnagottigallu, I never made any mistakes.

I can proudly say about my mother Institute , where I got academic exposure, that I am one of the part of this world class renowned institute.

My good wishes to all participants of silver jubilee function of SVIMS.

SVIMS is an excellent institution with excellent faculty and sophisticated equipments. I am blessed to be a student of COLLEGE OF PHYSIOTHERAPY, SVIMS.

I am PENUBALA LAVANYA of second batch that is 1999-2004 i finished internship in the year 2004 i am married to RAMESH BABU working as MPDO and blessed with 2 daughters PAVANIKA & JYOTHIKA I was very busy with my family from 2004-2012 and was attempting for bank exams, groups and civils at that time as my husband was in the same line he encourage me.

Then i started working as physiotherapist in RAJIV VIDYA MISSION, kadapa

In 2012 i started my own clinic at kadapa with the support Of my husband

In 2013 i started working in SVRRGGH as a physiotherapist i am happy to say that i still have support from my college of SVIMS, my PRINCIPAL DR.K.MADHAVI madam and from my teachers, for which i am thankful to them

I would like thank the god first for what i am today

I would like to thank my parents SRINIVASULU GARU, SHYAMALA GARU, and my brother SRIKANTH (he is the one who has brought me application to join in this course)

I thank my gurus that is faculty of my college for their blessing in the knowledge they have give me.

I am always thankful to my husband and children for their support

I Use to believe that“ Education is the most powerful weapon which you can use to change the world.” and it was proved because of the SVIMS University. Which gave me a best professional career as a qualified Medical Laboratory Technician after qualifying a Post Graduate Diploma in Medical Laboratory Technology [PGDMLT, 2003-2005]. The SVIMS has given me the confidence I need to stand confidently, not only in the field of Clinical laboratory wing to any part of the diagnostic wing. Due to the training and hands on experience of different advanced technology faced in the SVIMS, I was able to stand and face the challenges in the getting a professional paramedic career in the **Defence Organisation (Government of India)** and had chased many challenges and proving my self with appreciation from the officers and patients. Actually it was possible due to my education at SVIMS university, which gave me best provision for my life's journey in the medical field as paramedical professional. Because “Training is everything”.

My experience “ while I was in SVIMS I was exposed to the world that I didn't know was possible.” Amazing technical partners, amazing teaching professors and assistant professors, everyone was very friendly and motivated to learn with disciplined environment. I really enjoyed the study, especially meeting new technology and challenges from different departments at SVIMS. It was an unforgettable experience and I would recommend this to everyone, who want to become a best paramedical professional.

It was one of the best experiences I have ever had as a Lab Technician in SVIMS. Everything was good, technical staff and administration.

I did my M.Sc Biotechnology during 2006 to 2008 at Department of Biotechnology, SVIMS and Currently I am working as Scientist, Product Development-pLSD, Department of Purification, Dr. Reddys Laboratories, Hyderabad.

It is indeed the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Associate Professor & Head Dr.P.V.G.K. Sarma and my guide Dr Dr.P.V.G.K. Sarma. Studying at SVIMS has helped me in shaping me professionally. The vast clinical material available here along with the laboratory facilities helped me in gaining clinical knowledge as well as acquiring laboratory skills to survive in these competitive times. Though I was from a non medical background, the residents of the department helped me in understanding the clinical correlations of laboratory tests and their applications. The departmental seminars, Chalk and talk sessions, laboratory postings all helped in my multifaceted development. It enthused in me the confidence of being able to take up my role in future that of a teacher, working in a laboratory, working in a research centres etc. Through my dissertation work I learnt the basics of conducting research which will help in future when I intend to do my PhD.

The department headed by Prof Associate Professor & Head Dr.P.V.G.K. Sarma garu taught us not only Biotechnology but the very importance of understanding the basics in the subject and its application to sciences. I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all theirs endeavours.

Name: Mrs. RoohiFabeena

Present Position: Associate Professor

About Institution:

I Mrs. RoohiFabeena had completed under graduation in Nursing from SVIMS CON would like to share my gratitude towards my teachers and SVIMS community during my period of education

“Teachers are like roots for our tree, who helped us to bear colourful flowers and fruits”

A Teacher – A pillar of support, and epitome of strength, as loving as a mother, as strict as father, as caring as friend, a disciplinarian, yet always so approachable and warm at heart. A Teacher – A beautiful human being. That’s precisely what a Teacher is for every student. Teachers are Mentors. They are student’s role models. Everything they say feels right. Everything about them looks nice. From the confines of a class room, they have exposed us to the real world. They prepared us to live. I definitely owe them a thank you.

I am glad to be the student of SVIMS, a million thanks to our Teachers and SVIMS community. As you gave me strength to make my dreams come true. For the world you are one person, but for one person you are the world! And that person is me. Thank you Teachers, thank for the challengers you have made me face. For they gave me courage to be leading in every race. Teachers you are the best wherever I go, whatever I do, I will always remember you. You have inspired me to find my goal and made me capable of realizing it. Am grateful for everything you gave me. You did not just teach, you mentored. You made me literate with your guidance seemingly difficult things became easy, you thought me to keep trying and never to lose hope. You blessed me with Success and gave me strength. I consider myself lucky to have you all as my family. Whatever little I have achieved is because of SVIMS teachers and family. Whoever I am today is because of you. You showed me the right path. I cannot thank you all just enough.

“The true Teacher defends her pupils against her own personal influence. She inspires self-trust. She guides their eyes from herself to the spirit that quickens her. She will have no Disciples”

I owe you all a debt of gratitude for all that you have done for me.

Thank you all!!!!!!

Name: Asha J Gummadi.

<https://www.linkedin.com/in/ashajgummadi/>

Additional degree/ diploma / fellowship you achieved after graduating from SVIMS:

Advanced Master of Science in Physical Therapy MSPT (MGH Institute of Health Professions, Boston with Specialization in Neurology.
Neuro-Ifrac Certified Practitioner.
Neurological Clinical Specialist (APTA Board Certified)
Certified Kinesiotaping Practitioner. (CKTP)
Vestibular Rehabilitation A Competency Based Course. (Emory University)

Significant academic achievement/s:

NCS: There are about 2290, board Certified Neurological Certified Specialists in the entire United States till date. The certification is awarded to practicing clinicians of highest standard, with + 2000 clinical hours treating patients with Neurological Diagnosis and after an 8-hour rigorous examination testing competency in multiple domains of clinical diagnosis, and treatment with a passing score of 70% to award the degree.

NCS degree is comparable to a PhD level of educational expertise, where in Universities accept clinicians with NCS degree to teach courses to students attending the entrée level doctoral program.

Significant achievement/s in fields not related to academics:

Awards and Accolades:

“Physiopreneur Award”- Awarded Best Physio Entrepreneur in Vicennial Celebrations of Physiotherapy in Andhra Pradesh on the occasion of the world physiotherapy day in the year 2017.

“Indian Physio Award.” Awarded in recognition and appreciation to contribution in the field of physiotherapy at 1st International Physiotherapy Conference, Organized by IAP Madurai Branch and Co Organized by PPAM, Madurai, Tamilnadu held on 8th and 9th January 2018.

TAANA: Won 2nd Place in the TANA Medha Business Forum, conducted on May 26-28 2017 at St Louis, MO, where in 200 participants throughout India and United States have applied.

I have established Sarojini E Learning, LLP with a vision to bridge the academic and clinical gap between USA and India. The workshops conducted by Sarojini E Learning are well received and appreciated by clinicians across the country. The workshops are taught during every visit that I make to India to visit my family.

My new maiden project ‘Therex Portal’ is developed to fill the need of physiotherapists being able to teach home exercises to patients in their native languages. Therex Portal will improve patient satisfaction, shorten recovery time, decrease the burden of cost and improve compliance to practice recommended exercises.

Summary:

Success is an a very subjective term. If gaining knowledge and leading a peaceful life are considered a success, I would say I am successful.

Studying at Sri Venkateswara Institute of Medical Sciences has shaped my career, with developing a deep passion towards the field of Neurological Physiotherapy. Dr.S.G.K. Krishnamoorthy Garu the then HOD of Department of Neurology, has been instrumental in building my interest and passion towards the field of neurological physical therapy.

My professors of physiotherapy college have shaped my personality in developing a sense of industriousness and resilience which has helped me succeed in life.

I would like to thank the Director Dr. T.S.Ravi Kumar, the Dean Dr PV LN Srinivasa Rao who gave me this opportunity, the Principal of College of Physiotherapy Dr. K. Madhavi and all my professors, teachers and Gurus who shaped my future.

Respectfully,

Asha J Gummadi, PT, MS, NCS, CKTP.

SRI VENKATESWARA INSTITUTE OF MEDICAL SCIENCES:TIRUPATI
ALUMNI REGISTRATION APPLICATION FORM

Name: Sujith Thummalapalli

DOB: 03-12-1987

Age: 30

Gender: Male

Course Studied: B.Sc Nursing & M.Sc Nursing

Year of Admission: B.Sc Nursing – 2005

M.Sc Nursing – 2011

Year Passed out: B.Sc Nursing – 2010, Jan

M.Sc Nursing – 2014, Jan

Other Achievements:

- Certified Internal Auditor In **NABH** certified by Association of Health care providers india and Quality council of India
- American Heart Association Certified BLS & ACLS Instructor

Present Position :

- Manager , Chief Trainer and Quality Consultant in SHINE Consultancy (Self Start up Consultancy)
- American Heart association Training Faculty in **International Training Centre Dr.NTRUHS**

Significant Achievements:

- Got MBA Health care management admission in one of premier institute in india **Indian School of Business**, Hyderabad and Mohali.

Significant Achievements other than Academics:

- Established a **start-up** in the year 2016 as consultancy. Our Main scope of service is conducting BLS & ACLS Trainings and Assisting the Heath care organisation to get NABH Accreditation. From past two years training program have been conducted in more than 30 hospitals and Assisted more than six hospitals in getting NABH Accreditation

"Everything might have changed over years but knowledge and memories which SVIMS gave remains in our heart forever.

I have done Mch urology from 2006-2009.

At SVIMS we could see lot if cases and enrich our knowledge under the able guidance of our professors.

Urology department at SVIMS was very academically active with rich clinical experience. It was really great learning experience working at SVIMS".

Name : Mrs. Manasa Godati M.Sc (N), Phd
Designation: Assistant Professor, King Khalid
University, Kingdom of Saudi Arabia

About my institution:

College is cycle of stripped identity in which we continuously challenge our minds, step outside our comfort zones, and sometimes lapse into being lost. Without you, we would not have a foundation to feel grounded ever so often, so thank you.

To our professors: Thank you for making learning our passion. Twenty years from now, it will not be the grade you gave us that mattered, but the lessons you taught us through the textbooks, the discussions, and the office hours. Eloquently stated and simply put, you all are wonderful. Although doctors heal, lawyers represent, contractors build, and bankers invest, you help instill in us the hunger for knowledge, the passion to learn, and help ignite the flame to set ablaze our dreams.

Name: Dr . M. Lakshmi Ananth,
Designation: consultant neurosurgeon
Address: Gowri Gopal Hospital, Kurnool,AP.

I am Dr.M.L.Ananth,now working as consultant neurosurgeon in Gowri Gopal Hospital Kurnool. After completing my M.S in General Surgery at Kurnool,with a passion to become neurosurgeon I worked as a resident in neurosurgery department for an year.After clearing the entrance exam I joined as a resident in the same department and completed my course in 2011. Under the able guidance of Dr.B.C.M.Prasad, Dr.Suresh, Dr.Anil, Dr.Varaprasad and Dr.Ramesh chandra I gained enough confidence and skill to handle neurosurgery cases. Despite getting offers at Hyderabad following the footsteps of my uncle Dr.W.Seetharam and my desire to serve the poor I joined as assistant professor in Kurnool Medical College on contract basis . Now I am working as a consultant neurosurgeon at Gowri Gopal Hospital Kurnool. I thank everyone in the department at SVIMS for guiding me so that I could become confident enough to deal with patients.I still remember the trip to Talakona with all the staff.

Awesome experience. Lots of sleepless nights, caffeine and new procedures but most importantly lots of knowledge, enthusiastic teachers, new techniques and an inspiring learning atmosphere. I especially loved our department, spent many many hours there (trying to help patients and prepare for seminar) Learned surgeries, developed new skills and improved my attitude towards patients. Thank you SVIMS for a wonderful time and marvellous experience.

Courses Studied in SVIMS, College of Nursing.

B.Sc Nursing : 2000 – 2004 (4yrs)

PG Diploma : In Cardiology (2years) 2005-07

M.Sc Nursing : 2010 – 2012

Family Particulars : W/o G. Bhanuprakash
R.V.S. Medical College
Dept. of Physiology
Chittoor.

Present Position : Nursing Tutor Gr-II
SVIMS University
College of Nursing
Tirupati.

Present Academic Status : Pursuing Ph.D
Sri Padmavathi Mahilaviswavidyalayam
Tirupati.

Academic Achievements : Presented a paper regarding Pregnancy
induced hypertension in SPMVV, Tirupati

Phone No. : 8978462340

E-Mail : ssridevi958@gmail.com

About the Institution : I am very happy to say SVIMS is my mother institute. I am very much thankful for the opportunity that I have got to do my UG & PG in this institution. I feel really very proud that I am working in the institution. It is a wonderful feeling to be in association with the institution for the past 15 years as a student and as a faculty. I thank the lord Venkateswara and every one who has support me.

NAME : SALMA

Designation : Staff Nurse :

Academic Achievement : B.Sc 2009-2013 BATCH)

Feels very happy on worked as Staff Nurse in SVIMSSVIMS provide good opportunity to study to reach the goal.

Name: Dr Raghavendra A

Designation:

Mobile No. +91- 8287112669

Email Id: raghu005@gmail.com

I did my M.Sc Biotechnology during 2004 to 2006 at Department of Biotechnology, SVIMS and completed Doctoral programme from Thapar University (now known as Thapar Institute of Engineering and Technology), Patiala in the year 2013. I have an expertise in the area of plant molecular biology/genetic engineering. During the doctoral programme I worked extensively on Molecular cloning and functional characterization of class I patatin gene promoters from potato cultivars. A total of five new class I patatin gene promoters have been identified and their functionality were assessed in potato by transgenic means. As per my academic credentials I was awarded UGC-Research Fellowship in Sciences for meritorious students (UGC-RFSMS) by UGC, Govt. of India.

After my Ph.D. I worked as Research Associate (w.e.f. April 2013-March 2017) in an Indo-Australia Grand Challenge Project at National Research Centre on Plant Biotechnology (NRCPB), New Delhi. I worked extensively on the development of transgenic Indian mustard resistant to aphids by RNAi approach. Two potential double stranded RNA domains were identified in mustard aphid which upon silencing via dsRNA mediated gene silencing of the corresponding genes could lead to aphid mortality (patent under progress).

As part of my second postdoctoral programme as Research Associate (w.e.f. April 2017-November 2017) in Indian Agricultural Research Institute (IARI), New Delhi, I worked on development of transgenic cabbage and cauliflower resistant to Diamondback moth, a major insect pest by the introduction of cry1b/cry1c Bt-toxins. A number of transgenic lines resistant to Diamondback moth of both the crops were developed.

During the course of my postdoctoral programme, I got selected for RCB-Young Investigator Award sponsored by the Department of Biotechnology, Govt. of India. Currently I am working as Young Investigator at Regional Centre for Biotechnology (RCB), Faridabad, Haryana. I am investigating on infection site specific transcriptional reprogramming in *Medicago truncatula* upon powdery mildew infection. These findings will then be translated for its potential application value in *Pisum sativum* crop against powdery mildew infection.

It was the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Professor_____ and my guide Dr _____. Studying at SVIMS has helped me in shaping me professionally and spiritually. The various topics covered under the clinical meetings like research presentations, spotter presentations, Capsule on an investigation, CPC discussions help in applying the clinical knowledge in a more appropriate and useful way. The Senior faculty here encourage interdepartmental discussions as and when required which gave us an opportunity to discuss with other departmental colleagues and taught us the concept of multidisciplinary approach to any case and thus helped us in better application of our clinical knowledge for patient management.

The department headed by Prof _____ garu taught us not only _____ but the importance of basic sciences in medicine which helped me in getting a grip over the subject. Professor _____ gave us all the support for our thesis and research work.

I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

Experience in SVIMS -

I should firstly thank lord Venkateshwar swamy for obtaining the seat at svims.

Svims has Changed my life the way I was and the way I am now, has taught me how to deal with the worst situations , apart from guiding me in building my career ,

last but not the least I am thankful to the entire staff personally urology department for forgiving my mistakes and making my stay a pleasurable one ...

Name: Gayathri Kama
 Designation: physio for Andhra state women's team
 Address: K.Gayathri
 c/o.Rangamahala theatre,atmakur,Kurnool,
 A.P pin-518422
 Mobile No. 9000412500
 Email Id: gayathri.kama@gmail.com

Paper presentations- paper presented at physiotherapy national conference at Mangalore in 2010 on Effectiveness of 6 week plyometric training in improving vertical jump and agility in female basketball players.

Non academic achievements- participated and formed women cricket team to represent in national university level cricket competitions at Gwalior in year 2006.

Other Details- Thank u so much for providing me an opportunity to share my professional details with SVIMS chronicle on occasion of silver jubilee. I Undersigned here as K. Gayathri student of 2003 BPT and 2009 MPT batch in SVIMS University. From 2008 to 2009 I worked as tutor and clinical physio at DDHRC Andhra mahila sabha Hyderabad.

In 2009 I got 2nd rank in post-graduation entrance of physiotherapy (svims) and has chosen sports medicine as my speciality as I have intense passion towards sports. I got an opportunity in my 2nd year of MPT from Andhra cricket association to provide services as team physio for under 19 women cricket tournament.PROF.DR.Madhavi mam supported and permitted me to represent from college. Team felt satisfied with the injury management and got offered as full time team physio for state women's cricket team in 2011 august. I was assigned with all age groups of women's cricket tournaments and I became part of team's success in Andhra cricket family.

From the year 2013 I was chosen to work with inter zonal tournaments as team physio for south zone women cricket team(u19 and seniors).Apart from sports career I have interest in teaching too so I worked as lecturer in off season in KIMS karad college of physiotherapy (2012) maharastra and in Apollo college of physiotherapy as guest faculty (2016).

In year 2014 and 2015 I worked with ACC (Asian cricket council) as physio for them. In the year 2016 and 2017 I got an opportunity to work with south zone ZCA (zonal cricket academies under NCA) as physio for under 19 team.

Along with my career, I felt upgradation of skills adds precision in injury management and overall performance of players. So I have done courses like

Rigid taping and strapping techniques, Certification in Kinesiotaping basic and advanced, Integrated manual therapy, neuromuscular dry needling, Anti-doping in cricket, CPR and ALS certification, mulligan manual therapy and Mueller's taping approach and level 1 sports science and sports medicine course by National Cricket Academy accreditation (BCCI).

I got accredited with NCA in the year 2016 under guidance of INDIAN team physios MR. Patrick farhart and MR. Andrew leipus in level 1 SSSM and also trained in smartabase software(for maintain players injury and fitness profile).

Studying at SVIMS has helped me in shaping me professionally and spiritually. The various topics covered under the clinical meetings like research presentations, spotter presentations, Capsule on an investigation, CPC discussions help in applying the clinical knowledge in a more appropriate and useful way. The Senior faculty here encourage interdepartmental discussions as and when required which gave us an opportunity to discuss with other departmental colleagues and taught us the concept of multidisciplinary approach to any case and thus helped us in better application of our clinical knowledge for patient management.

The department headed by Prof _____ garu taught us not only _____ but the importance of basic sciences in medicine which helped me in getting a grip over the subject. Professor _____ gave us all the support for our thesis and research work.

I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

Name: C. Sheela
 Address: M.Sc., PGDMLT

It gives me an immense pleasure to put forth my experience that I gained from this institute after my post graduation. I worked as Senior Research Fellow under the able guidance of Prof. and Dean Dr.Srinivasa Rao. The commitment to work and the determination for the completion of the given job is what I have learnt from this course. I learnt that only hard work pays and hard work is the key to success. I experienced that service to the people can never go in vain. It will support us and paves a way for better life. Wherever I work, whatever I do, the practice and skills that I gained from this institute gives me faith to do service.

I am completed my B.Sc Nursing in SVIMS college of Nursing 2009-2013. After completion of course joined as a Staff Nurse in SVIMS after one year joining M.Sc (N) in SVIMS completed M.Sc (N) 2014-16. This is one of the great opportunity to provided SVIMS to me. Both my B.Sc (N) and M.Sc (N) completed on SVIMS. I have lot of attachment SVIMS. This is ,my mother Institute because I have learn so much of discipline in SVIMS. CURE SOME TIMES, TREAT OFTEN, COMFORT ALWAYS IT IS LIKE SVIMS: Thank for this great opportunity.

"SVIMS university has been a crucial milestone in my life and stepping stone for my success graph, from Laboratory professional to Healthcare IT professional. Career started as a Lab Technicians at Sri Ramachandra Medical College, Chennai. Joined Sri Sathya Sai Super specialty hospital and management noticed my dedicated and quality of work, made more opportunity for other students from SVIMS university. More than 12 years of Laboratory experience boosted me to Join US Healthcare IT company as Senior Solution Designer at Cerner Healthcare Solution, Bangalore office. The professors are supportive and keep a student oriented attitude. This provides a great learning opportunity to students. The classes are guided by rational structured courses and cogent reasoning to understand the concept and their applications. I want to express my heartfelt thanks to the College who gave me the perfect opportunity to explore myself and raised my level of confidence."

I am old student of SVIMS- Department of Biochemistry .

It is indeed the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Sr Professor PVLN SrinivasRao and my guide Dr VS Kiranmayi Studying at SVIMS has helped me in shaping me professionally. The vast clinical material available here along with the laboratory facilities helped me in gaining clinical knowledge as well as acquiring laboratory skills to survive in these competitive times. Though I was from a non medical background, the residents of the department helped me in understanding the clinical correlations of laboratory tests and their applications. The departmental seminars, Chalk and talk sessions, laboratory postings all helped in my multifaceted development. It enthused in me the confidence of being able to take up my role in future that of a teacher, working in a laboratory, working in a research centres etc. Through my dissertation work I learnt the basics of conducting research which will help in future when I intend to do my PhD.

Designation : Head of the department (Physiotherapy)
Jeevika Multispecialty Hospital,
Marathahalli, Bangalore.

Address: House. No:36, Flat. No: 201
Opp. 4th cross, 1st A main road, Gururajalayout,
Doddanakkundi, Marathahalli, Bangalore – 560037

Phone: 91 7353936748 **Email ID:** madybpt2012@gmail.com

Qualifications: BPT, MPT (Ortho and Sports), MIAFT, IASTM, DNT, CT

I am happy to be a member of Alumni association of SVIMS. I did my Bachelors in Physiotherapy between the years of 2007 to 2012 from college of physiotherapy SVIMS, Tirupati. It was a great journey and then an amazing learning curve which has not only gave me immense knowledge but also it nurtured me in to a great human being which i have learned a lot. I will be always grateful to the department as a whole and especially my principal Dr. K. Madhavi madam has been my role model and she is the one who has molded me in all aspects. I also hold good memories with all my batch members. Academics are well structured, interactive and interesting in the college of physiotherapy. The guidance of my professors will always be remembered. The cool climate, serene atmosphere and greenery within the SVIMS campus are always mod refreshing. I feel very proud to introduce myself as “Graduated from SVIMS”.

Name: Mohan Kumar

Designation: Cathlab Technician in Aster MIMS,

Address: Malabar Institute of Medical Sciences, Calicut,
Kerala.

I, Mohan Kumar, had studied PGD ECG & CVT in the year of 2002 – 2004 in SVIMS, Tirupathi. I have been working as a Cathlab Technician in Aster MIMS [Malabar Institute of Medical Sciences], Calicut, Kerala since 2004. Myself and my friend started Sadana Unique Foundation [SUF] in the year of 2012. I have conducted several medical camps in my home town through Sadana Unique Foundation. Every year I adapt very poor and merit 10 students Where I studied VI to X ZPPH school, Chinnagottigallu, Chittoor [Dist], I have been providing to the students educational requirements like books, clothes, chappals etc for 5 years. I was awarded from Chittoor District collector for development of ZPPH school, Chinnagottigallu last year. I would like to do our foundation [SUF] to make more strong and more services and charity works to the society.

Name: Koteswara Reddy
Designation: PGDMLT

It is indeed the grace of the Lord Balaji that brought me to this institute located at his feet. Studying at SVIMS has helped me in shaping me professionally and spiritually. The vast clinical material available here along with the laboratory facilities helped me in acquiring laboratory skills. The demonstration of advanced techniques helped me in getting exposure to the current and advanced concepts. Though I was from a non medical background, the residents of the department helped me in understanding the clinical correlations of laboratory tests and their applications. The senior technicians of the department were always there to teach me the basics and to tell when I went wrong and guided me whenever I needed help. The laboratory postings in different departments along with hands on experience in handling patients' samples all helped me in gaining a grip on the subject. It enthused in me the confidence of being able to take up my role of a technician or to work in a research centre.

I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

Name: T.Sidda Reddy
Designation: PGDMLT

With a privilege of being first batch student in PGMLT at SVIMS, I feel fortunate and blessed to express the memories of my study days here. Academic exposure with a world class infrastructure and excellent faculty has endured me with a life long career excellence. The exceptional programmes and teaching methodologies backed by practical skills and interaction has given me the confidence to pursue my career very easily. I am really lucky to be a part of this renowned institution not only because of my training here but also because the things i have learned here. This helped me to grow better professionally and personally. i worked at different places Amar Hospital Kadapa 1995-1996, SIMS Nellore 1997-98, APEX LAB Ongole 1998-2000, SVIMS 2000-2002, From 2002 onwards Primary Health Center Dakkili, SPSR Nellore District to till date. My good wishes on this happy Silver Jubilee function.

Best lab technician award taken from DM&HO NELLORE District in 2014

PENUBALA LAVANYA

SVIMS is an excellent institution with excellent faculty and sophisticated equipments. I am blessed to be a student of COLLEGE OF PHYSIOTHERAPY, SVIMS.

I am PENUBALA LAVANYA of second batch that is 1999-2004 i finished internship in the year 2004 i am married to RAMESH BABU working as MPDO and blessed with 2 daughters PAVANIKA & JYOTHIKA

I was very busy with my family from 2004-2012 and was attempting for bank exams, groups and civils at that time as my husband was in the same line he encourage me.

Then i started working as physiotherapist in RAJIV VIDYA MISSION, kadapa In 2012 i started my own clinic at kadapa with the support Of my husband

In 2013 i started working in SVRRGGH as a physiotherapist i am happy to say that i still have support from my college of SVIMS, my PRINCIPAL DR.K.MADHAVI madam and from my teachers, for which i am thankful to them

I would like thank the god first for what i am today

I would like to thank my parents SRINIVASULU GARU, SHYAMALA GARU, and my brother SRIKANTH (he is the one who has brought me application to join in this course)

I thank my gurus that is faculty of my college for their blessing in the knowledge they have give me.

I am always thankful to my husband and children for their support

Name: Dr. V sai Krishna mohan
Designation: Senior resident, Nuclear Medicine
Address: SVIMS
Mobile No
Email ID

I did my Nuclear Medicine residency from SVIMS, and currently working as senior resident in the same institute. I was one of the 1st batch of M.D students. As it was a new emerging branch I had an apprehension on the scope of branch.

The faculty, staff and the environment in the department was very comfortable and cooperative. I was fortunate to be trained under great teachers. Throughout these 3 years, the academics were great and I had a great opportunity to know in depth and scope of this subject both in diagnostics as well as therapy.

The department in SVIMS provides an immense opportunity for the younger generation to emerge as good nuclear medicine physicians for their bright future.

Additional Degree:

Doctor in Physical Therapy [DPT]

University: Wayne State University

City: Detroit State: Michigan

Country: U.S.A

Significant Academic achievements: Pursued Doctor in Physical therapy in 2017.

First of all, I would like to convey my heartfelt gratitude to all the University personnel. Being a first batch student, I never felt insecure or uncomfortable with limited privileges. I was given assurance and felt like family. I had great learning

First of all, I would like to convey my heartfelt gratitude to all the University personnel. Being a first batch student, I never felt insecure or uncomfortable with limited privileges. I was given assurance and felt like family. I had great learning experiences from various aspects of a student's life. I would like to thank the faculty and staff for all their hard work and continued efforts to maintain an excellent reputation of the SVIMS University and also for the assurance they provided for the students. All those past learning experiences helped me in shaping my career. The knowledge and skills that I obtained from my college are still useful in providing effective patient care. I feel so proud to be a student from SVIMS University. I see a lot of diversified patient populations with different kinds of treatment needs. My ability to evaluate and provide effective treatment techniques according to the patients' need is only possible with good knowledge. I could proudly say that my SVIMS University made me a strong intellectual physical therapist to overcome any challenge in personal as well professional life.

Thank you all once again for making my life so successful,

I am honored as a student of SVIMS institute with blessings of Lord VENKATESWARA. Svims Alumni on 25 -02-2018 a great event, I am glad to be a part of it and my privilege to participate on this happy occasion.

The great Professor Dr BCM Prasad, the BEST TEACHER AWRDEE , under his purposeful guidance and training in many aspects of academics , clinical knowledge , research had fetch me many opportunities to work and serve for needy in any part of the globe .

Dr BCM Prasad led his life an inspiration and example to me to face many difficult tasks in my life .Sir is active, jovial and encourages to participate in sports and cultural activities too. Along with sir we won first prize in extracurricular events.

I understand how the relation between teacher and student from Prasad sir. My sir can be compared to a SAGE; he knows and gives what we need.

Name: Dr. Chinta Ramakrishna, MD DM, (Nephrology)
 Designation: Senior Nephrologist & Transplant Physician
 Managing Director - VEDANTA Hospitals

I have a great Aim to come up in life and to serve and provide quality health care to the ill-fated poor who are silent sufferers of ill health. In order to achieve my Aim, I have studied hard since my childhood and got medical seat fulfilling my dream.

After completion of my MBBS and M.D General medicine, I was fortunate to get seat in D.M. (Nephrology) in SVIMS – the name which implies an academic institute for medicine and territory care Hospital established in Tirupati with Blessings of Lord Sri Venkateswara- This provided me to learn an Ocean of Thoughts, Wisdom, and gave an Opportunity for Research etc.

I am very fortunate having studied Nephrology under the able leadership & guidance of my Guru & mentor Sri Dr V Siva Kumar. He teaches not only about the Nephrology but also about the Life, Human Relations & values and communications skills which contributed a lot in my daily life.

What I am today is the result of my studies in SVIMS under the guidance of Sri Dr. V Siva Kumar, I am very much Grateful to the Institution – SVIMS and MY Mentor Sri Dr. V Siva Kumar.

Name: DR P Sri Ram Naveen
 Designation: Consultant Nephrologist
 Address: Visakhapatnam

I am Dr P Sri Ram Naveen . Done my dm nephrology course in SVIMS under Dr Siva Kumar sir between 2007 to 2010. Later worked as Assitant Professor in dept of Neprology , SVIMS in 2010 to 2012 . For me working in SVIMS was a dream come true. SVIMS has given me a strong foudation both theorotically and praticallly and helped me to grow academically. It has given me an oppuritinity to learn from wide variety of patients. The clinical material available has helped me in journal publication under the guidance of Dr Siva Kumar sir most incredible teacher/advisor/motivator/role model/friend all in one. Today because of the dm degree in nephrology from SVIMS. I am what I was dreaming 15 years back . Presently working as consultant nephrologist in visakapatnam.

I wish svims to be best university in the world and to be role model university.

Being a Physician had been a dream since the time I don't even recollect. Having acquired degrees like MBBS and MD (General Medicine), the zeal of becoming a super speciality physician never wavered off in me. That's where this esteemed institution called SVIMS made me realise the essence of medicine more accurately and more efficiently.

Being the first Nephrology Resident at SVIMS brings me great pleasure and pride to say that this is where it all began, this is where I was trained to diagnose a patient more accurately and not give up until things get done in the way they should.

I had the acumen needed for a physician but probably lacked the direction to use that, but by the time I left this place all my mistakes were corrected, all my knowledge found a direction and a path was laid to what I am now.

This is the place and these are the teachers who taught me that each life counts, each patient is different from the previous, each scenario is a puzzle on its own and to fight against all odds to save that one life I could.

I cannot say how far I would go or where I would reach at the end, but I can definitely say that this is how it started and this is where it started. My passion, My dreams and My goal were all put together by these stalwarts here at SVIMS.

Name: Dr.Raja Sekhar.S.V.R.
 Designation: Assistant Professor, Pathology, GEMS medical college
 Address: D.no- 10-6-37, kailash nagar, Poojitha hospital street, Gajuwaka, Visakhapatnam -530026

It was the grace of the Lord Balaji that brought me to this institute located at his feet. I am blessed to be trained under Professor _____ and my guide Dr _____. Studying at SVIMS has helped me in shaping me professionally and spiritually. The various topics covered under the clinical meetings like research presentations, spotter presentations, Capsule on an investigation, CPC discussions help in applying the clinical knowledge in a more appropriate and useful way. The Senior faculty here encourage interdepartmental discussions as and when required which gave us an opportunity to discuss with other departmental colleagues and taught us the concept of multidisciplinary approach to any case and thus helped us in better application of our clinical knowledge for patient management.

The department headed by Prof _____ garu taught us not only _____ but the importance of basic sciences in medicine which helped me in getting a grip over the subject. Professor _____ gave us all the support for our thesis and research work.

I am happy that ASVIDA is formed and bringing out a booklet on Annual day celebrations of the institute. I wish all my friends and the Alumni of SVIMS success in all their endeavours.

Name: Dr.Vemuri Chaitanya
Designation: DM(Nephrology)

It was a great experience to do my DM(Nephrology) training in SVIMS. I am blessed to be trained under Professor Dr.V.Siva Kumar garu. SVIMS, being a multispeciality hospital with structured post graduate training programme, we had multiple kinds of clinical meetings, where specialists of different departments interact and discuss to enlighten each other. So, we as trainees were fortunate to learn medicine as whole rather than get restricted to our speciality alone. Dr.V.Siva Kumar, our mentor, not only taught us nephrology but also basics of medicine. His interest in understanding pathophysiology and applying it bedside made all the difference and made medicine more interesting. He also taught us basics of research and under his guidance, our department of nephrology was able to contribute a lot to research in the field of nephrology. Professor PVLN Srinivas Rao garu and his team gave us support for our thesis and research. I have made good friends in SVIMS and such good friendships that last for rest of my life. Training in SVIMS helped me in becoming a better physician and a better human being. I will always be grateful to my teachers and SVIMS for that.

I am delighted that ASVIDA is formed and bringing all us together. I thank Professor PVLN Srinivas Rao sir for all the efforts.

Blessed to be a student of Dr.V.Siva Kumar and SVIMS.

I'm lucky to have studied in SVIMS and also worked in SVIMS Emergency Medicine with well equipped facility in this hospital.

Physiotherapy is a Drug –Free , Non-Invasiva Healthcare Practice.
PHYSIOTHERAPIST Helps People with Injury, Disability or Illness To Restore Movement, Function and Strength.

MY STORY.....

ABOUT ME:

I V.Guru Prasad native of jammalamadugu which is located in kadapa dist. Jammalamadugu is a small town . There are nearly 20 villages around my town.

And my schooling was completed in jammalamadugu itself. I joined in our esteemed college of physiotherapy in 2008. And i finished course successfully in 2012.

ESTABLISHMENT OF MY CLINIC:

With an intention of providing professional physical therapy management to people, I opened my clinic in October 2015 with the help of my parents and my friends.

As am receiving marvelous response from patients i decided to run a another branch in koilakuntla , which is 40 km away from my native.

AIMS :

I want to bring our physical therapy treatment to each and every person who are in need.

My goals are providing the benefits of physiotherapy,there by reducing the health care cost in musculoskeletal, neurological, pediatric, and sports management.

RESPONSIBILITIES :

- 1.Educating the patient about their illness.
- 2.Preparing physical therapy treatment plans.
3. Measuring functional outcome after treatment.
4. Home exercises and precautions.

ABOUT AWARENESS PROGRAMS :

I am much interested in educating patients about physical therapy .

I have been conducting free physical therapy camps along with some medical professionals twice or thrice every 3 months.

So far i conducted around 25 free camps and awareness programs on physical therapy management.

ADVERTISEMENTS :

For publicizing about my clinic services i opted news papers, local magazines and local TV channels. I often publish some age and work related disorders. There by ill health people get chance to know regarding their conditions and physical therapy management.

SERVICES AT MY CLINIC:

Orthopaedic Rehabilitation.
Neurological Rehabilitation.
Sports Rehabilitation.
Pediatric Rehabilitation.

All these rehabilitations are done by using advanced techniques like Dry Needling, Manual Therapy, NDT, Bobath technique, Cupping Therapy, Kinesio Taping especially in Musculo Skeletal disorders.

SUCCESS NEVER END :

I would like to say one important thing is that i never seen success. I am just on my way to success.

There are many reasons how the person succeed in his or her field. But in my life my success was started at the time of joining in SVIMS Univerisity.

Fortunately i was gifted professors who are well qualified in physical therapy teaching field. I specially thanks to my principal madam dr.madhavi garu, dr. suresh sir and dr.kavitha madam, dr.senthil sir ,dr.viswanth sir, dr.sreekumari madam,who helped me to acquire knowledge, competences and values in this field.

And what i found is remarkable education, well designed subjects, excellent facilities in which vast exposure about patient ill health. All these helped me to became a successful physical therapistwhat i am now.
