

MORTALITY

SVIMS instituted mortality reduction & quality improvement strategies along a novel strategy of “Multiple Sequential Wedges of improvement”. Each set of quality improvements is introduced every 6 months & effects measured. These ‘6 month spells’ of average mortality rate are represented in the graphs.

SVIMS Gross Death Rate(%) during 2011-2019 (till September)

SVIMS Net Death Rate (%) during 2011-2019 (till September)
