

MORTALITY

SVIMS instituted mortality reduction & quality improvement strategies along a novel strategy of “Multiple Sequential Wedges of improvement”. Each set of quality improvements is introduced every 6 months & effects measured. These ‘6 month spells’ of average mortality rate are represented in the graphs.

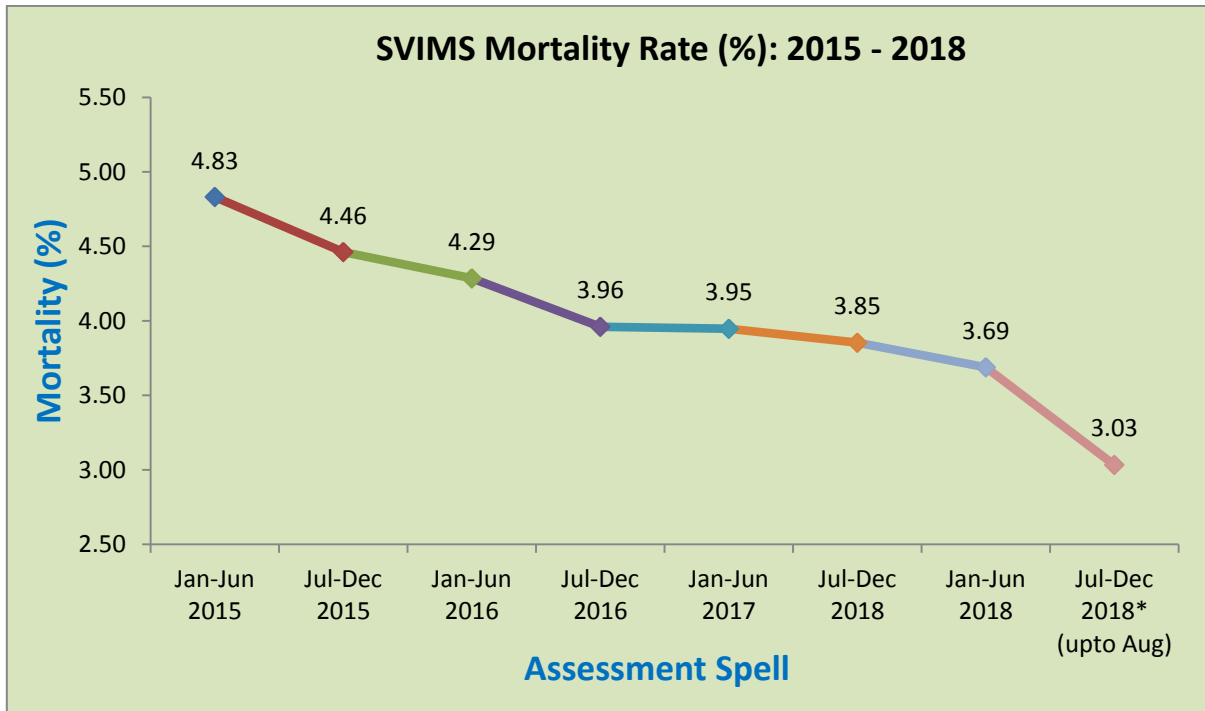

**Average Mortality rate (GDR)
2015 – 2018 (30th Sept)**

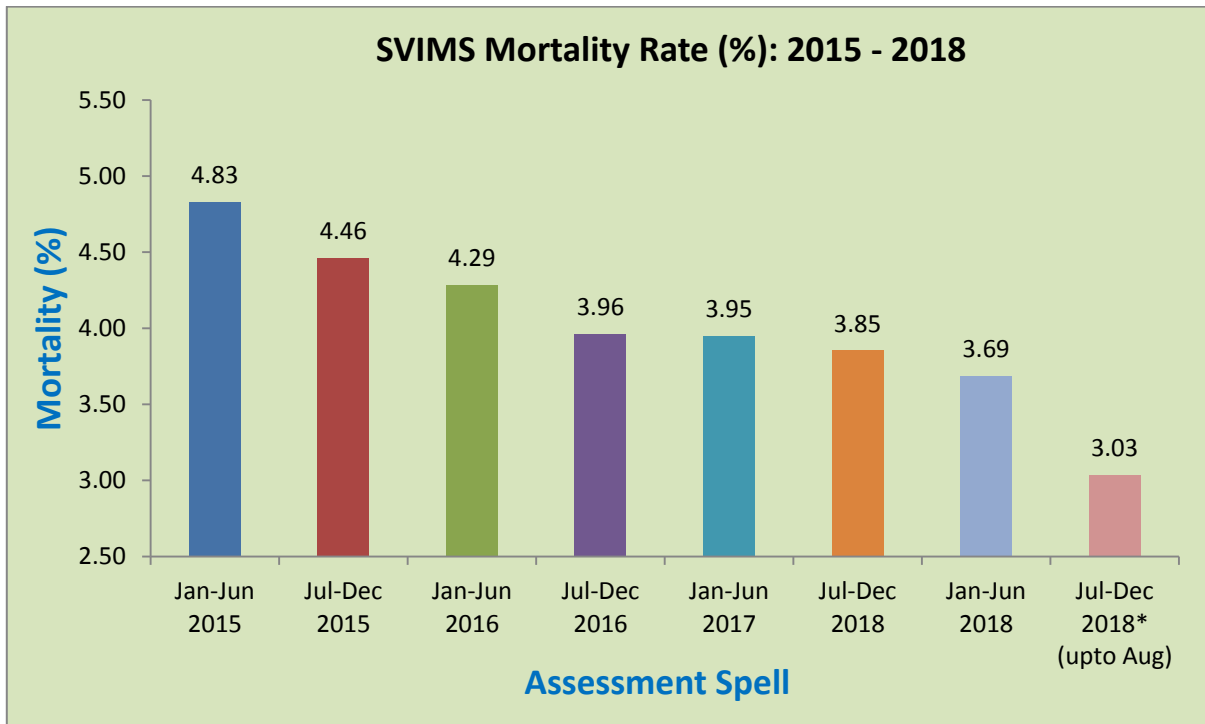

**Average Mortality rate (NDR)
2015 – 2018 (30th Sept)**

Spell wise mortality rate

Alternative way

Monthly mortality for the year 2018
